

Horilla HRMS Revolutionizes Operations for Businesses and Announces Major CSR Initiative

Kozhikode, Kerala May 10, 2024 ([Issuewire.com](https://www.issuewire.com)) - Horilla HRMS, an innovation in open-source human resource management systems, makes an announcement today concerning the empowerment of businesses and healthcare institutions.

Horilla [Open Source HR Software](#) has a state-of-the-art, user-friendly platform that streamlines all aspects of HR, starting from recruiting and onboarding through payroll, leave management and performance review. With this, the comprehensive solution empowers businesses of all sizes to optimize their operations, increase employee satisfaction, and hence drive growth at scale.

Revolutionize Business Operations

Horilla HRMS offers the best combination of the latest features and an intuitive interface. This enables businesses:

Streamline recruitment: Manage your entire recruitment process efficiently right from sourcing the best talent to onboarding them.

Streamline payroll: Automate tasks in payroll so that employees are paid on time and with the correct salary.

Leave and attendance management: Track employee leaves and attendance with ease, thereby cutting down on administrative burdens.

Improve Performance Management: Provide opportunities for effective feedback and development and build a high-performance culture.

Empowering Healthcare Heroes: A Commitment to Corporate Social Responsibility

Horilla HRMS is proud to announce that its HRMS platform will be distributed absolutely free of cost to the first 100 hospitals that contact them. This effort goes a long way in showing the commitment of Horilla toward healthcare institutions and their operational efficiency.

Hospitals interested in taking advantage of this limited-time offer can visit the Horilla HRMS website
