

NAMTECH Launches Ground-breaking Smart Manufacturing Course to Revolutionize Industry

Gandhinagar, Gujarat May 4, 2024 ([IssueWire.com](https://www.issuewire.com)) - NAMTECH proudly announces the launch of its Smart Manufacturing program (iPMP in Smart Manufacturing). The program is focused on reshaping the landscape of Industry 4.0. The program equips students with the practical skills and theoretical knowledge necessary to succeed in the rapidly evolving world of smart manufacturing.

The rise of the Internet of Things (IoT), big data analytics, and cyber-physical systems has brought in a new era of innovation in manufacturing. The successful implementation of these technologies requires a skilled workforce equipped with the knowledge and expertise to harness their full potential.

The iPMP in Smart Manufacturing is a specially designed course to prepare professionals to run future factories in Industry 4.0 technologies. It bridges the skill gap between engineers with conventional engineering and engineers required for smart manufacturing.

The iPMP curriculum has four intertwined threads – Technology, Engineering, Design, and Management (TEDM). The courses are supported by industry-simulated labs with state-of-the-art sophisticated equipment and CAD/CAM software tools.

What sets this program apart is its emphasis on experiential learning. Students will have the opportunity to work on complex, real-world problems, gaining practical experience that is invaluable in today's competitive job market. The following are some salient features of the program:

- Guaranteed job placements
- 100% scholarships and a 100% tuition fee waiver
- Industry 4.0 learning environments
- Unparalleled exposure and networking opportunities.
- Industry experts and practicing academic scholars

The iPMP in Smart Manufacturing is ideal for graduates with a BE/BTech degree. This program blends real-world Industry 4.0 experiences with a comprehensive curriculum. It fosters a unique learning environment, combining projects, competencies, and theory to shape aspiring Techno-Managers of the future.

About NAMTECH

New Age Makers Institute of Technology (NAMTECH) is a pioneering institute dedicated to shaping the future leaders of technology and innovation. The institute redefines education with a commitment to give students practical mastery. Through immersive experiences, virtual simulations, and hands-on activities, the institute ensures that students don't just learn – they conquer.
