In an exciting development for cricket enthusiasts, Odroo is proud to announce its official partnership as the Partial Ticketing Partner for the highly anticipated Tata IPL T20 2024. With this collaboration, fans can now secure their seats for the electrifying matches of IPL through Odroo, marking the platform's entrance into the realm of major event ticketing.

By offering seamless access to tickets for marquee events such as Tata IPL T20 and music concerts, Odroo aims to revolutionize the ticketing experience for fans across India.

The launch day of Odroo's ticketing services witnessed an overwhelming response from fans, with traffic soaring to over 8 million visits within a mere 16 hours. While the surge in demand briefly led to an app crash, Odroo is diligently working around the clock to ensure uninterrupted service delivery to its valued customers. In the meantime, fans can still secure their tickets for Tata IPL T20 through manual booking or by utilizing the convenient UPI payment option on Odroo's website or app.

Setting itself apart from competitors, Odroo prioritizes the needs of die-hard fans by offering direct access to coveted tickets. Unlike platforms that cater primarily to corporate sectors, Odroo empowers fans to claim their spot in the stands and be part of the live-action spectacle. Tickets for highly anticipated clashes such as KKR vs MI and PBKS vs RCB are already available for purchase, beckoning fans to secure their seats before they're gone. Many more to be listed soon.

With a proud legacy dating back to 2019, Odroo is a registered entity with the MCA, renowned for its reliability and trustworthiness. Boasting exceptional customer service and a stellar track record of customer satisfaction, Odroo is committed to providing a seamless ticketing experience that exceeds expectations.

In light of recent instances of impersonation aimed at tarnishing Odroo's reputation, the company urges the public to exercise caution and reach out directly through their official website to avoid falling victim to fraudulent activities.
