

Orthopedic Surgeon Dr. Jessica M. Hooper Elevates Patient Care at Stanford Outpatient Surgery Center

Specializing in Hip and Knee Joint Replacement Surgery in Redwood City, California

New York City, New York May 2, 2024 ([IssueWire.com](https://www.issuewire.com)) - Dr. Hooper, a renowned orthopedic surgeon specializing in hip and knee joint replacement surgery, is making waves in the medical community with her patient-centered approach to orthopedic care. Serving as a Clinical Assistant Professor at Stanford University School of Medicine and leading the outpatient joint replacement program at the Stanford Outpatient Surgery Center, she is dedicated to enhancing the quality of life for

her patients in Redwood City and beyond.

With a focus on treating injuries and conditions related to hip and knee degenerative conditions, such as arthritis, avascular necrosis, and post-traumatic injuries, her expertise shines through in her application of tissue-sparing surgical techniques. Notably, she is a pioneer in the anterior approach to total hip replacement and incorporates robotic navigation for optimal outcomes in her procedures.

Prioritizing nonsurgical options before considering surgical interventions, Dr. Hooper's patient care philosophy revolves around understanding each individual's unique goals and tailoring treatment plans accordingly. Her commitment to patient well-being is evident in the profound enhancement of her patients' quality of life following surgery, helping them regain their cherished activities.

A Bay Area native, her journey in medicine began at UCLA, where she excelled as a student athletic trainer before pursuing her medical degree at Michigan State University College of Human Medicine. Following her residency training at New York University Hospital for Joint Diseases and a fellowship at Stanford University, she honed her skills in hip and knee joint replacement surgery, eventually joining Kaiser Permanente to gain valuable experience in same-day total joint replacement.

Recognized for her exceptional contributions to the field of orthopedic surgery, Dr. Hooper is board-certified by the American Board of Orthopedic Surgery and holds memberships in prestigious professional organizations, including the American Academy of Hip and Knee Surgeons, the American Academy of Orthopedic Surgeons, and the Ruth Jackson Orthopedic Society for Female Surgeons.

As a prolific author and presenter at national conferences, her expertise in joint replacement surgery techniques and outcomes has garnered acclaim. Her pioneering research on the application of virtual reality as an educational tool for residents in mastering total hip replacement procedures earned her the esteemed 2018 American Association of Hip and Knee Surgeons FARE grant.
