

PawTronic Unleashes Freedom and Peace of Mind with Nationwide Wireless GPS Dog Fence System

PawTronic, a leading innovator in pet safety technology, today announced the nationwide availability of its revolutionary Wireless GPS Dog Fence System.

PawTronic

New York City, New York May 9, 2024 ([IssueWire.com](https://www.issuewire.com)) - PawTronic, a leading innovator in pet safety technology, today announced the nationwide availability of its revolutionary Wireless GPS Dog Fence System. This groundbreaking system offers dog owners across the United States a safe and humane way to keep their furry companions contained without the limitations of traditional fences.

“We are thrilled to bring the freedom and security of our Wireless GPS Dog Fence System to dog owners throughout the USA,” said by CEO of PawTronic. “This innovative technology eliminates the need for physical fences, allowing dogs to enjoy the outdoors while providing pet parents with peace of mind.”

Unleashing the Power of Technology for Pet Safety

The PawTronic Wireless [GPS Dog Fence](#) System utilizes a sleek and stylish designer collar equipped with a Swiss-made GPS chip, ensuring superior accuracy and real-time tracking. Dog owners can easily set customizable boundaries, ranging from 100ft to a spacious 3000ft radius, using a user-friendly app.

Features and Benefits:

- **Wireless Freedom:** Eliminates the need for traditional fences and buried wires.
- **Customizable Geofence:** Create safe zones ranging from 100ft to 3000ft.
- **AI-powered Technology:** Provides a seamless user experience with easy setup and training.
- **6 Levels of Correction:** Choose from vibration or gentle shock (with 6 levels of intensity for each) to suit your dog's temperament.
- **Long-lasting Battery Life:** Enjoy 24 hours of worry-free use with a quick 2-hour recharge.

Peace of Mind for Every Adventure

Whether you have a sprawling backyard or enjoy exploring new dog parks, the PawTronic Wireless GPS Dog Fence System offers the perfect solution. The system provides multiple layers of security, including:

- **Boundary Alerts:** Receive notifications when your dog approaches the set perimeter.
- **Real-time Tracking:** Monitor your dog's location with ease through the intuitive app.
- **Escape Prevention:** Built-in deterrents gently remind your dog to stay within the safe zone.

About PawTronic
