

The Remarkable Story of Paresh Lalabhai Ko.Patel: Triumphing Over Deafness

TURNING SILENCE INTO SUCCESS :
Meet Paresh KoliPatel, Acing Exams with HearNU.

Ahmedabad, Gujarat May 30, 2024 ([IssueWire.com](https://www.issuewire.com)) - Born deaf and mute, Paresh Lalabhai Ko. Patel faced numerous challenges from a young age. Everyday tasks such as cycling were hazardous without the ability to hear oncoming traffic, and communicating with others was a significant hurdle. Despite various attempts with different hearing aids, none brought substantial improvement to his condition.

A pivotal moment arrived when Paresh was introduced to WeHear's Hearing Test Camp. At the camp, the WeHear team fitted him with their innovative device, allowing Paresh to hear sounds for the first time—including the voices of his parents. This experience marked the beginning of a transformative journey for him.

With aid from the Indian Red Cross Society and local support from friends in Aravalli, Paresh acquired the HearNu device, a critical tool in his auditory and speech development. Through relentless speech therapy, supported tirelessly by his parents and teachers, Paresh gradually enhanced his ability to hear and speak clearly.

This newfound skill enabled him to participate more actively in academic and social activities. His hard work was reflected in his results, as he scored an impressive 83% in his 10th board exams. The HearNu device played a crucial role in facilitating his learning and communication.

Continuing his academic pursuits in the Arts stream, Paresh's dedication and the support of his WeHear device led him to achieve an outstanding 91.8% in his 12th board exams. His story exemplifies the impact of perseverance and resilience in overcoming great odds.

Paresh Lalabhai Ko. Patel's journey is an inspiring testament to the idea that no challenge is too great when faced with determination and the right support. He exemplifies that with the courage to push forward and break down barriers, anything is achievable.
