

WEL Companies – A Perfect Refrigerated Warehousing Solution Provider

WEL Companies remains at the forefront of keeping food inventory in good condition for long periods. With expertise, excellence, and knowledge.

De Pere, Wisconsin May 7, 2024 ([Issuewire.com](https://www.issuewire.com)) - The following press release briefly describes a leading company that offers the best refrigerated warehousing solution.

WEL Companies is known for the best temperature warehousing solutions, bringing innovation to the industry. We are here to provide an exclusive solution for storing products on a large scale at the right temperature.

With a team of experts, WEL Companies has rich years of experience in storing food products in the city.

An Insight into WEL Companies's History

In 1975, Bruce Tielens devised a vision to start a family business called Wisconsin Express Lines. Joining hands with Father Wally, the company became renowned for providing truckload and less-than-truckload services.

In 1987, the business started blooming with more than 150 trucks and trailers and delivering quality services nationwide to some of the largest food, beverage, and dairy companies.

In 1988, the company got the new name - WEL Companies. With the new name and ideas, the company added warehousing services to its portfolio to reflect its migration to logistics services.

Today, Bruce and his children are involved in the business and handling various areas. The company has gained huge popularity in the industry by storing, shipping, and delivering goods at the highest possible level. The company owns and operates 9 temperature-ambient-controlled locations.

It also provides a wide range of services to protect the brand and help businesses grow successfully.

Warehousing Solution at WEL Companies

WEL Companies is committed to providing [Refrigerated Warehousing PA](#) to keep inventory in good condition. Refrigerated or cold storage at WEL Companies maintains a cool temperature to preserve perishable items.

The company has eight facilities, 27 million cubic feet, and one nationwide warehousing footprint with specialized, flexible, and efficient options.

- Strategic, accessible location
- Food-grade and American Institute of Baking
- Combination cooler, freezer, and dry storage
- cross-docking for consolidation/deconsolidation
- Selective rail access
- ASI (American Sanitation Institute)

Unique Storage Programs

Be it long-term product storage, short-term storage, cross-dock, or inventory consolidation for redistribution, WEL Companies is known for providing customized solutions. The company is also responsible for managing all warehouses with a clear WMS that allows them to meet logistics needs and requirements.

Cheese Financing

The company brings a value-added program that allows customers to focus on what they do best, be it making cheese or delivering procurement services. While the cheese is in storage, the financial burden can move the capital from inventory to more valuable revenue-generating investment.

Following your instructions, the company pays the manufacturer, transports, stores, and ages the product as per your requirements. This unique program will save money, and no need to tie up in costly inventory.

Cold Storage Warehousing at WEL Companies

WEL companies come up with the [Cold Storage Warehousing PA](#) that maintains the right temperature in order to keep various perishable items fresh and safe for a long period. Cold storage at WEL involves preserving food products through different methods at temperatures between 0° C and 4° C.

In addition to extending shelf life, the company offers excellent storage solutions, including improved quality, superior flavor, and greater nutritional value.

The leading company also provides secure inventory management and track record-keeping solutions for food producers. By taking advantage of **Cold Storage Warehousing PA** at WEL, businesses can have more control over their perishable items and know their produce is stored correctly.

Integrated Logistics Solutions

WEL Companies has the reputation of serving clients with efficient and economical options catering to everyone's transportation requirements.

Because the entity has several years of experience in managing the transportation business, it is safe to claim that it possesses substantial executive power over the organization of the process, starting from supply chain planning, organizing, and tons of other activities to get products or services to the end-line customers.

Due to the support of well-skilled logistic experts, WEL can involve itself in a wide range of food business activities. Also, the company is available to pick up TL and LTL loads on a same-day basis in addition to its capacity for dry vans, reefers, and flatbeds.

To make a special place in the bustling business, our company follows a system with prominent features such as satellite vehicle fleet tracking, modern route planning software, paper inventory consolidation and organized storage.

WEL's customers will benefit from planning their shipments, integrating transportation controls with their driver, system options for customers, contract options, intermodal, warehouse pick-and-pack, flexibility in LTL, and cross-docking capabilities.

Unmatched Customer Service

WEL Companies' GPS-supported capabilities give their customers visibility of their logistics at a given time. The company is focused on providing outstanding customer service and services to help the businesses to come up with satisfactory at this junction.

The company feels all the pressure points in the food industry process that can create barriers for their business. They understand all of the challenges that manufacturing and distribution can bring about that can create obstacles for the business.

WEL's complete devotion and dedication are aimed at self-sustaining future (edible) items for long periods. The organization can bring about a more responsible and sustainable food industry.
