

Allxon Unveils Industry-First OOB Cloud Serial Console for NVIDIA Jetson at COMPUTEX 2024

Empowering Edge AI with Advanced Remote Troubleshooting and Access via Allxon's OOB Cloud Serial Console for NVIDIA Jetson

Taipei Shih / Taipei Hsien, Taiwan Jun 6, 2024 ([Issuewire.com](https://www.issuewire.com)) - Allxon today announced Allxon OOB Cloud Serial Console, marking a milestone as the industry's first offering tailored for the NVIDIA Jetson family. Allxon OOB Cloud Serial Console empowers direct device-level troubleshooting and remote access via debug UART. Allxon will be hosting a live demonstration at COMPUTEX 2024, showcasing this powerful technology alongside AVerMedia.

Partnering with AVerMedia, which unveiled its Standard Carrier Board D115W for the [NVIDIA Jetson Orin NX](#) and NVIDIA Jetson Orin Nano modules, Allxon showcased its power-related features for swift disaster recovery.

Allxon OOB Cloud Serial Console leverages NVIDIA Jetson devices' serial console port through the hardware interface for seamless remote access and troubleshooting. This innovative solution provides unprecedented convenience and top-tier security. Unlike traditional SSH methods, Allxon OOB Cloud Serial Console eliminates the need for cumbersome server setups and fixed ports, significantly boosting both security and operational flexibility.

Allxon OOB Cloud Serial Console has received worldwide acclaim during its early access (EA), attracting partners including telecommunications giants, smart security innovators, independent hardware vendors, and leading edge AI software developers. Allxon is thrilled to announce that its OOB

Cloud Serial Console general availability (GA) is set for quarter three of 2024.

Allxon will showcase Allxon Cloud Serial Console at COMPUTEX 2024 at booth #L1309a, Hall 1, 4F in Nangang Exhibition Center Halls 1 and 2 from June 4th to 7th.
