

Angela A. Kokkosis, MD, FACS, Board Certified Vascular Surgeon with Stony Brook Medicine

Leading the Way in Vascular Surgery with Expertise, Groundbreaking Research, and Educational Excellence

New York City, New York Jun 17, 2024 ([Issuewire.com](https://www.issuewire.com)) - Dr. Angela A. Kokkosis is a distinguished figure in the realm of vascular surgery, celebrated for her exceptional work as a clinician, researcher, and educator. With a wealth of experience and expertise in open and endovascular approaches addressing various vascular conditions, she has made significant contributions to the field.

At the Renaissance School of Medicine at Stony Brook University, Dr. Kokkosis holds many roles, including Associate Professor of Surgery, Program Director of Vascular and Endovascular Residency, and Director of Carotid Interventions, playing a pivotal role in shaping the future of vascular surgery. Her responsibilities also extend to Co-Medical Director of Non-Invasive Vascular Laboratory and Director of the Center for Vein Care at Stony Brook Medicine, with affiliated specialty centers at Aortic Center, Hemodialysis Access Center, Limb Salvage Center, and Vascular Center.

Beyond her clinical roles, Dr. Kokkosis is deeply committed to medical education, notably serving in leadership positions with the Society for Vascular Surgery (SVS), where she has been actively involved in guiding medical students and residents in their professional development. Her dedication to education exemplifies her passion for nurturing the next generation of vascular surgeons.

A Long Island native, Dr. Kokkosis completed her undergraduate and medical training through a combined BS-MD program at Stony Brook University and pursued specialized training in vascular surgery at The Mount Sinai Hospital in New York.

As a Fellow of the American College of Surgeons (FACS) and a member of prestigious vascular surgery societies, including the International Society of Vascular Surgery and the Peripheral Society of Vascular Surgery, Dr. Kokkosis upholds the highest standards of professional excellence in her practice.

Her commitment to advancing the field is further underscored by her prolific research contributions. Dr. Kokkosis has authored numerous publications and presentations on arterial, carotid, and venous diseases, and is the principal investigator for clinical trials aimed at the treatment of venous disease.

Recognized with several awards for her academic and clinical endeavors, Dr. Kokkosis received her MD with Recognition in Research from Stony Brook University School of Medicine in 2009. In 2010, she earned the First-Place Award for her oral presentation on the “Role of Accessory Saphenous Veins in Patients with Chronic Venous Disease” at LIVE 2010 in Corfu, Greece. The following year, Dr. Kokkosis was awarded Second Place for her poster presentation on the “Experience of HeRO Dialysis Graft Placement in a Challenging Population” at the Veith Symposium. In 2017, she was honored with the Fabio Giron Teaching Award from the Division of Vascular and Endovascular Surgery at Stony Brook Medicine.

Fluent in English, Greek, and Spanish, Dr. Kokkosis embodies a commitment to fostering communication and connection with the diverse community of Long Island. Her multifaceted contributions to vascular surgery, education, and research continue to inspire and elevate the field, making her a respected leader in the medical community.
