

Cynthia Beatty, MD: an Assistant Clinical Professor of Child Neurology at the University at Buffalo

Specializing in Pediatric Neurology and Neurocutaneous Disorders

New York City, New York Jun 6, 2024 ([Issuewire.com](https://www.issuewire.com)) - A seasoned pediatric neurologist, Dr. Beatty is an Assistant Clinical Professor of Child Neurology in the Department of Neurology at the Jacobs School of Medicine & Biomedical Sciences at the University at Buffalo. Her areas of interest include migraines, seizures, tics, concussion, demyelinating disorders such as MS and ADEM, and neurocutaneous disorders like neurofibromatosis.

Pertaining to her educational pursuits, she received her medical degree from Poznan University of Medical Sciences and a bachelor's degree in Psychology from Hamilton College. Having completed her fellowship in Pediatric Neurology at the State University of New York at Buffalo, she is well-equipped to address a wide range of neurological diseases affecting the pediatric population.

Committed to providing comprehensive care for patients with neurocutaneous disorders, Dr. Beatty established a specialized outpatient clinic at Women and Children's Hospital of Buffalo. This multidisciplinary clinic will cater to individuals with Neurofibromatosis 1, Neurofibromatosis 2, and tuberous sclerosis, offering a holistic approach to treatment involving experts from neurology, neurosurgery, hematology/oncology, ophthalmology, genetics, and social work.

In addition to her clinical responsibilities, she is actively involved in teaching and mentoring medical students and residents. Her dedication to education has been recognized with the Resident Teaching Award in 2014.
