

Discover the Future of Home Brewing: The Smart Machine That Crafts Beer, Kombucha and More

iGulu S1 Set to Launch on Kickstarter, Revolutionizing Home Brewing

Los Angeles, California Jun 28, 2024 ([Issuewire.com](https://www.Issuewire.com)) - iGulu is excited to announce the launch of its latest smart home brewing machine—the iGulu S1 in the mid of this July This revolutionary device not only allows home brewing enthusiasts to easily craft high-quality craft beer but also

Smart Home Brewing, Simplified Process

The iGulu S1 is an all-in-one home brewing device that integrates brewing, fermentation, cooling, and dispensing. Whether you're a novice brewer or a seasoned expert, this machine simplifies the brewing process, enabling you to enjoy a professional-grade brewing experience at home.

Multi-Functional Design to Meet Diverse Needs

In addition to brewing beer, the iGulu S1 can also make kombucha, mead, apple cider, and white wine. This means you can create a variety of beverages from craft beers to healthy fermented teas and other flavorful drinks, all with one machine. Its multifunctional design greatly expands the possibilities of home brewing, catering to consumers' diverse beverage needs.

Innovative Technology for Enhanced Experience

The iGulu S1 is equipped with advanced sensors and a smart control system to ensure precise control

over every step of the brewing process. From temperature and time to the fermentation environment, everything can be monitored and adjusted via a mobile app, truly achieving a smart and convenient home brewing experience.
