

European Revival Begins: France's Powerful Bible Seminar Ignites a Continental Awakening

Over 1,000 Pastors Join in Spiritual Revival for the Second of Six Continental Seminars

Chicago, Illinois Jun 16, 2024 ([Issuewire.com](https://www.issuewire.com)) - Chairman Lee Man-hee Urges Understanding of Revelation: Seminar Sparks Interest Among Over 1,000 European Pastors

Pastor Delly Delphin Matondo of the Full Gospel denomination shared his profound experience at the Bible Seminar hosted by Shincheonji Church of Jesus, the Temple of the Tabernacle of the Testimony (hereinafter referred to as Shincheonji Church) in Paris, France. The event, attended by over 7,000 participants, including more than 1,000 pastors from Europe, marked the second stop of the 2024 Bible Seminars by Continents' initiative.

Focus on Revelation Amid Declining Christianity in Europe

As Christianity faces decline across Europe, with churches being repurposed into restaurants and bars, the seminar addressed critical issues in the context of faith revival. It forms part of a global effort to reignite interest and understanding of biblical teachings, particularly the Book of Revelation.

Spiritual Awakening and Unity Among European Pastors

Pastors attending the seminar expressed a strong desire to deepen their understanding of Revelation and to collaborate in efforts for church revival. *"The teachings in the Book of Revelation were profound and astonishing,"* Pastor Matondo remarked. *"If invited to Korea, I would prepare my ticket immediately."*

Impact and Outreach

The event featured a video lecture by Chairman Lee Man-hee, emphasizing the truth of Revelation and calling upon pastors to impart these teachings faithfully to their congregations. Discussions and exchanges among attendees highlighted a unified commitment to biblical study and revival.

Future Initiatives and Global Engagement

Looking ahead, Shincheonji Church plans to expand its educational outreach through the Zion Christian Mission Centers across Europe, accommodating the growing interest in biblical prophecy. *"We are preparing to invite pastors from around the world to Korea for further Bible seminars,"* a church representative stated. *"Our goal is to foster unity in understanding God's Word."*

Addressing Contemporary Challenges

Amidst societal modernization and secularization, the seminar signifies a pivotal moment for European churches, offering a path towards spiritual renewal amidst cultural challenges. The rise of atheism and religious pluralism has strained traditional Christian teachings, making initiatives like the Word Seminar essential for fostering renewed faith.

Commitment to Education and Collaboration

Shincheonji Church remains committed to global collaboration, with MOUs signed with 12,538 churches in 83 countries and ongoing efforts to expand educational opportunities through the Zion Christian Mission Centers. The church continues to welcome inquiries from pastors worldwide seeking to deepen their biblical knowledge and engage in theological discourse.
