

Green Party Race Heats Up with Joe McHugh Declaring Candidacy for President of the United States

McHugh, a veteran Marine Corps officer, corporate strategy & investment executive, and entrepreneur plans to give every American an option to be a planet-friendly millionaire in retirement.

New York City, New York Jun 17, 2024 ([IssueWire.com](https://www.IssueWire.com)) - Joe McHugh, a corporate strategy & investment executive, and entrepreneur since 15 years of age, has devoted his life to developing profitable solutions to social and environmental challenges.

McHugh's three-part plan restores liberty and justice for all by restoring the Bill of Rights and aligning human action with nature.

The Planet-Friendly Tax Plan gives every American an option to direct deposit their tax dollars on up to \$30,000 of income into a planet-friendly personal income investment account, and replaces income and FICA taxes with a 15% tax retained at the bank level.

The Planet-Friendly Money Plan restores Treasury management of the currency to give Americans the option to crowdfund planet-friendly upgrades for government spending projects which can be invested into through our personal income investment accounts.

The Love and Respect Law Plan appoints three Attorney's Generals to partner with public and compete against each other to restore the Bill of Rights, hold corporations accountable for pollution, and eliminate entrapment by repealing, replacing and rewriting any law, policy, procedure or agreement that obstructs the liberty or justice of any individual.

McHugh is urgently seeking volunteers to spread the word of love, liberty and nature.
