

Renowned Ophthalmologist Neil P. Finnen, MD, Enhances Eye Care at Midwest Eye Institute

Comprehensive Expertise in Age-Related Macular Degeneration, Diabetic Retinopathy, and More

New York City, New York Jun 7, 2024 ([Issuewire.com](https://www.issuewire.com)) - With a passion for providing exceptional eye care services, Dr. Finnen has established himself as a leading ophthalmologist at the prestigious Midwest Eye Institute in Indianapolis, Indiana. Specializing in a wide range of conditions and treatments, he brings a wealth of knowledge and experience to his practice, ensuring the highest quality of care for all his patients.

Dedicated to the field of ophthalmology, he offers expertise in treating various eye conditions, including age-related macular degeneration, diabetic retinopathy, epiretinal membrane, retinal detachment, macular hole, and vitreomacular traction. His commitment to staying at the forefront of advancements in eye care allows him to provide cutting-edge treatments and personalized care to each individual.

Before embarking on his professional journey, Dr. Finnen completed his undergraduate studies at the University of New Mexico in Albuquerque before earning his medical degree from the University of New Mexico School of Medicine. Following his residency at Columbia University College of Physicians and Surgeons in New York, Dr. Finnen pursued a fellowship at Baylor College of Medicine in Houston, solidifying his expertise in ophthalmology.

In addition to his clinical practice, he holds hospital privileges at the IU Health Surgery Center on Aboite Road and IU Health North, where he continues to provide exceptional care to his patients. His affiliations with these esteemed institutions further underscore his dedication to delivering comprehensive and specialized eye care services to the community.

Patients seeking expert ophthalmologic care can rely on Dr. Finnen's compassionate approach and commitment to excellence. With a focus on patient education and individualized treatment plans, he ensures that each patient receives the highest standard of care tailored to their unique needs.
