

Swati Srivastava, MBBS, FACP, Skilled Pathologist in Hematology & Medical Oncology at Cleveland Clinic Main Campus

Providing Expertise in Leukemia, Lymphoma, and Myeloma Treatment

New York City, New York Jun 14, 2024 ([Issuewire.com](https://www.issuewire.com)) - Dr. Swati Srivastava, MBBS, FACP, an

experienced pathologist treating adults, is a vital member of the Department of Hematology & Medical Oncology at Cleveland Clinic Main Campus. With a wealth of experience and a dedication to patient-centric care, she is committed to providing top-notch medical services in the diagnosis and treatment of various cancers or disorders of the blood.

Composed of a multidisciplinary team including physicians, nurses, researchers, advanced practice providers, and other healthcare professionals, the Department of Hematology & Medical Oncology is dedicated to diagnosing and treating patients with cancers or disorders of the blood. With a steadfast commitment to compassionate patient care, they prioritize the well-being of patients and their families above all else.

Having received her Bachelor of Medicine, Bachelor of Surgery Degree from King George's Medical University in Lucknow, India, in 2003, Dr. Srivastava followed this up with an internship at Gandhi Memorial & Associated Hospitals in 2004. Her residency in anatomic and clinical pathology at St. Luke's-Roosevelt Hospital Center in New York, completed in 2011, laid a solid foundation for her subsequent fellowships in hematopathology (2012), cytopathology (2017), and blood banking/transfusion medicine (2018) at prestigious institutions such as Dartmouth Hitchcock Medical Center and University Hospitals of Cleveland.

As a Fellow of the American College of Physicians (FACP) and board certified in anatomic pathology, cytopathology, hematopathology, and blood banking/transfusion medicine by the American Board of Pathology, Dr. Srivastava brings a high level of expertise and professionalism to her practice. Her areas of specialization include leukemia, lymphoma, and myeloma, where she employs the latest advancements in diagnostic techniques and treatment modalities to ensure the best possible outcomes for her patients.
