Understanding the Home Renovation Process with Minyan Renovation

Our home renovation process at Minyan Renovation is designed to provide you with a seamless and stress-free experience from start to finish. Here's a breakdown of how we work:

Free Consultation

The journey begins with a free consultation with one of our renovation experts. During this initial meeting, we assess your needs, review your home in person, and provide you with a detailed proposal outlining the labor costs for the entire project. Our transparent approach ensures there are no surprises later on in the renovation process.

Design

Once you've decided to work with Minyan Renovation, we pair you with an in-house interior designer who will guide you through the design process. From selecting materials, fittings, and fixtures to matching your vision, our designer will work with you to create a customized plan for your renovation project.

Permits

Navigating building regulations and permit processes can be daunting, but with Minyan Renovation, you can rest easy. Our team of experts is well-versed in Vancouver's building regulations and will manage all permits and paperwork required for your construction project. We will expedite approvals to ensure your project stays on track.
