This accolade marks Business GPS's debut on the list, underscoring its rapid growth and commitment to navigating businesses through today's challenging economic landscape.

"We are thrilled to be recognized among the nation's top-performing companies on the Inc. 5000 list," said Joseph Meuse, Founder of Business GPS. "This achievement reflects our unwavering dedication to guiding businesses through financial complexities and operational hurdles, empowering them to thrive."

Methodology: Companies on the 2023 Inc. 5000 are ranked according to percentage revenue growth from 2019 to 2022. To qualify, companies must have been founded and generating revenue by March 31, 2019. They must be U.S.-based, privately held, for-profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2022. (Since then, some on the list may have gone public or been acquired.) The minimum revenue required for 2019 is \$100,000; the minimum for 2022 is \$2 million. As always, Inc. reserves the right to decline applicants for subjective reasons. Growth rates used to determine company rankings were calculated to four decimal places.
