

Celebal Tech, a Global Leader in Data & AI Solutions Presents World's Biggest Databricks Hackathon Spark-Wars 3.0

The poster features a dark blue background with purple accents. At the top left, the logos for Celebal Technologies and Databricks (Elite Partner) are displayed. The main title 'World's Biggest Databricks Hackathon' is in large white font, with 'Spark-Wars 3.0' in a smaller font below it. A date banner indicates '26th-28th July'. A QR code is positioned on the right side, with the text 'Scan & Refer your Data Engineer Allies!' below it. At the bottom left, the tagline 'READY. STEADY. HACK.' is followed by 'Think Databricks Think Celebal Tech'.

World's Biggest Databricks Hackathon

26th-28th July

READY. STEADY. HACK.

Think Databricks
Think Celebal Tech

Jaipur, Rajasthan Jul 24, 2024 ([IssueWire.com](https://www.issuewire.com)) - Celebal Tech, a Global Leader in Data & AI Solutions Presents the World's Biggest Databricks Hackathon Spark-Wars 3.0

About the Company:

Celebal Technologies, a premier software service company that was established in 2015 specializes in digital transformation and enterprise reinvention. The business caters to a plethora of different industries like Manufacturing, BFSI, Retail & CPG, Media & Entertainment, Power & Utilities and Sustainability. The organization is known for designing & developing practical solutions, powered by innovation and cutting-edge technologies, which further distinguishes the organization from other tech giants in this industry.

Furthermore, Celebal Technologies has partnered with well-renowned organizations that include AWS, Databricks, Microsoft, Red Hat and SAP. Moreover, the organization has a global presence and has its operations spread worldwide covering major parts of the world including the USA, Canada, UK, UAE, Japan, Australia, Singapore, Thailand, and Malaysia. In addition, the company comprises over 2000+ professional employees, which serves an impressive client base.

World's Biggest Databricks Hackathon Event Announcement:

Celebal Technologies is excited to announce the epic return of Spark-Wars 3.0, the third edition of the

organization's flagship Databricks Hackathon. This groundbreaking virtual event is designed to showcase data and AI expertise, the ability to tackle real world data challenges using the power of Databricks, winning epic prizes, having the leverage to earn global recognition and having an impeccable opportunity to join the Celebal Technologies team! The main objective of this competition is not only to solve complex data puzzles but instead utilize this remarkable opportunity to explore creativity, build transformative solutions, and push the boundaries of innovation.

Key highlights of the event:

- Databricks
- Data & AI
- Data Engineering
- Hackathon Challenge
- Big Data
- Data Analytics

Required Qualifications:

- Students are eligible to take part who belong to certain backgrounds like BCA, MCA, BTech, MTech, B.Sc. IT, M.Sc.IT, PGDBM.
- Other eligibility criteria include having a relevant 1-year professional experience in Python, Spark, SQL, Data Engineering, and specialization in Data & AI fields.
- In addition, tech enthusiasts are also invited to this event who are looking forward to expanding their career horizons.

Impeccable Prizes:

Following the commencement of this event, Celebal Technologies is proud to announce that the winner and participants will be receiving amazing prizes. There is the opportunity to win mind blowing prizes like:

- Winning a PlayStation 5 along with \$200 DPC (DATABRICKS PROFESSIONAL CERTIFICATE) vouchers (Winner)
- An iPad mini along with \$200 DPC vouchers (1st Runner Up)
- Marshall Speaker along with \$200 DPC vouchers (2nd Runner Up)
- Top 100/200 Participants who'll be receiving a Swag Bag

This virtual event is segmented into 3 distinct parts which are as follows:

26th July- 27th July (6 AM IST-2 AM IST):

This is Day 1 of the event (event commencement) which will take place in the form of an online MCQ assessment. This is the very first round of the event in which candidates would be expected to be prepared to have a deep insight into the data. This assessment would pertain to topics like advanced data and AI technologies like Databricks, Generative AI, Delta Lake, Lakehouse architecture, LLMs, Apache Spark, RDBMS, SQL, and Python.

27th July-28th July (10 AM IST-6 AM IST):

This is Day 2 of the event where coding will take place. There will be 3 challenges for participants, including SQL-based and two programming-based questions. This round will determine the participants' skillset and what expertise they have brought with them to prove their abilities.

28th July-29th July (2 PM IST-10 AM IST):

The third day, which is the final round of this Hackathon event pertains to setting up cluster. Participants will address a scenario-based data engineering challenge which will have to be coded on a Databricks notebook.

Personal Interview:

This is an interaction round where participants could engage directly with Celebal Technologies Databricks leaders.

After this event is finished, the results will be released on 2nd August 2024.

Note:

- It's important for participants to know that Teamwork is strictly prohibited throughout the event
- This event is completely free of cost
