

Cutting-Edge Automation Unveiled: Atomatik Sets New Standard for Enterprise Efficiency

Atomatik's platform addresses the growing demand for intelligent automation by freeing organizations from repetitive, high-risk tasks.

The Rise of Digital Workers Transforming the Modern Workplace

New York City, New York Jul 24, 2024 ([Issuewire.com](https://www.issuewire.com)) - Atomatik, an innovative leader in [intelligent automation](#), announces the launch of its cutting-edge enterprise process automation platform. Located at 140 Broadway, New York, NY 10005, Atomatik delivers a powerful, industry-agnostic solution designed to streamline and enhance organizational efficiency.

Founded by Dmitriy Blyumin and Cristina Pene, Atomatik emerged from the founders' extensive experience in banking and automation software. Blyumin, with over two decades of expertise, co-founded Atomatik to advance process automation technology. Before Atomatik, Blyumin co-founded RightClick, a test automation software for financial services, and managed Capital Markets software at Finastra. Cristina Pene, the company's COO, brings a wealth of experience from RightClick and Finastra, where she led operations and product development, refining automation strategies.

Atomatik's platform addresses the growing demand for intelligent automation and [digital workers](#) by freeing organizations from repetitive, high-risk tasks. Designed with direct input from business users, Atomatik incorporates valuable insights gained from years of collaboration with top global financial institutions. This user-centric approach ensures the platform meets the evolving needs of modern businesses while avoiding common pitfalls in automation.

Clients have lauded Atomatik's impact on their operations:

Ana Maria Comanescu noted, "Our process involves many calculations, verifications, and data handling across different systems, which previously led to human errors. Atomatik's automation has significantly reduced data processing errors and improved consistency across systems. The support and guidance from the Atomatik team have been invaluable in maintaining a smooth workflow."

Luke Borg Costanzi praised the platform's accessibility: "Atomatik is a powerful tool that merges Digitalization and Robotics into a user-friendly interface. It allows non-technical users to create their own automation processes effortlessly. The UI Automation Recording module stands out as a particularly impressive feature. The Atomatik team provided exceptional support, addressing all queries promptly and effectively."

Katie Poniatowska highlighted the transformative effects of Atomatik's solutions: "Atomatik has drastically reduced our workload by automating administrative tasks. Their solutions have revolutionized our workflow, leading to highly satisfactory results."

Since its inception in 2020, Atomatik has been dedicated to refining its platform to meet customer needs and advance the field of enterprise automation. The company's commitment to innovation and customer satisfaction underscores its role as a key player in the automation landscape.
