

Docs Made Easy collaborates with BlackIron to maximize document generation automation in US, offering a global solution

Docs Made Easy enters into a definite agreement with US-based Salesforce consulting partner BlackIron to expand its outreach in the US region.

Richmond Hill, Ontario Jul 15, 2024 ([IssueWire.com](https://www.issuewire.com)) - Docs Made Easy, a leading provider of document management solutions, announces yet another strategic partnership with BlackIron, a pioneer in digital transformation and Salesforce consulting.

Grounding on its mission to democratize document generation for all users, Docs Made Easy teams up with BlackIron to automate document generation within Salesforce, offering a powerful solution for businesses across the United States and beyond.

What This Partnership Means

Efficient document management is crucial for maintaining operational agility and compliance. By integrating Docs Made Easy's robust document management platform with BlackIron's expertise in Salesforce customization, this collaboration promises to streamline document generation processes like never before.

Docs Made Easy and BlackIron are committed to empowering organizations with scalable, efficient, and secure document generation solutions that align seamlessly with Salesforce environments. This partnership not only strengthens their capabilities in the US market but also positions them as global

leaders in Salesforce-powered document automation.
