

K Ahuja Group Streamlines Supply Chain with BatchMaster Web ERP

Mumbai, Maharashtra Jul 9, 2024 ([Issuewire.com](https://www.issuewire.com)) - BatchMaster Software Pvt. Ltd. is thrilled to announce the onboarding of its new client, K Ahuja Group, headquartered in Mumbai. The group has chosen BatchMaster Web-based ERP, complemented by Tally Integration, to enhance operational efficiency for their two units, Bombay Masala Company (BMC) and Komal Exotic Spices (KES).

K Ahuja Group, a fourth-generation-run corporation with a legacy of over 60 years, specializes in

premium spices and exotic dry fruits. Their global sourcing network spans continents, with private centers in Sri Lanka, Dubai, Indonesia, and Madagascar. They harvest, procure, and process products to maintain their natural integrity, offering a curated range of exceptional quality and wholesomeness.

Previously, BMC and KES managed inventory levels using Google Sheets and handled accounts with Tally. However, integrating processes and monitoring production, inventory, and quality posed challenges. Despite creating a customized Google Sheets template for data entry, departmental synchronization remained incomplete.

The group sought software that could track production progress, anticipate challenges, and provide effective solutions. In their search for [food ERP software](#), they found BatchMaster superior in terms of its functions and features specific to the food industry. The solution was tailor-made and supported various best practices of the industry, making BatchMaster their preferred choice.

They chose BatchMaster WEB ERP, incorporating core modules like Inventory, Purchase, Sales, MPS/MRP, Quality Control, Production, Laboratory, Formula, and Costing. They also requested customized report formats tailored to their specific requirements.

Mr. Ganesh Ahuja, Managing Director at K Ahuja Foods, stated, "The inventory module will significantly impact our operations. The ability to manage product rejection, handle by-products, and monitor the entire conversion from raw materials to finished goods is only possible with a robust ERP system like BatchMaster."

Concluding his thoughts, Mr. Ahuja appreciated the real-time business data availability, marking it crucial as he is on the move for 10 to 15 days a month. He looks forward to accelerating his Sri Lankan operations using [BatchMaster Web ERP](#). Mr. Ahuja expressed his happiness with the BatchMaster journey, praising the team's service, patience, and support in addressing all queries and managing changes.

Mr. Sanjay Panjwani, Managing Director at BatchMaster Software, added, "I am pleased to share that our solution has successfully addressed several of their challenges and will surely yield positive outcomes. We are committed to offering them top-notch software solutions and services and look forward to seeing them soar high."

About K Ahuja Foods (KAF):

K Ahuja Foods (KAF) is a fourth-generation family-run corporation deeply rooted in the food industry, starting 60 years ago as Kirana store merchants. KAF is a leading supplier of exotic spices and premium dry fruits in India, with subsidiaries including Komal Exotic Spices, Bombay Masala Company, KAGRA Foods, and operations in Sri Lanka, Dubai, Indonesia, and Madagascar.

Their mission is to be the "Global Leader of Traditional Ingredients," guided by values of "Quality & Integrity." They continuously innovate "from the ground up," supported by over six decades of procurement expertise.

They are committed to responsibly sourcing ingredients, using proprietary techniques to preserve natural integrity and deliver products of exceptional quality.
