

‘Melania, Dog With No Hat’ MEME Ecosystem Migrates to Matchain

Seattle, Washington Jul 18, 2024 ([IssueWire.com](https://www.issuewire.com)) - ‘Melania, Dog With No Hat,’ a MEME ecosystem of apps and games, is pleased to announce its migration from BASE to Matchain. As Matchain nears its mainnet release, it promises to deliver low fees, fast transactions, a comprehensive AI, gaming, and MEME ecosystem, and a thriving community.

“We chose Matchain due to their vision, ecosystem support, and community,” said Aleks Wojewoda, co-founder and lead developer at ‘Melania, Dog With No Hat.’

In conjunction with this migration, ‘Melania, Dog With No Hat’ will airdrop their in-game \$BONE token on Matchain and bridge its live MEME token \$MEL from BASE to Matchain. This strategic move aims to enhance the user experience and expand the reach of the ‘Melania, Dog With No Hat’ community.

About ‘Melania, Dog With No Hat’

‘Melania, Dog With No Hat’ is a dynamic MEME ecosystem featuring a variety of apps and games. Its leading app, Mellionaire’s Quest, allows users to earn BONEs, which will be converted into BONE tokens and airdropped to qualifying players. An upcoming dog racing game will enable players to use BONE tokens as in-game currency. Additional games and tokens are planned for future release, continuing to push the convergence of the MEME and entertainment industry.

About Matchain

Matchain is an EVM-compatible Layer-2 on the BNB Smart Chain. Our vision is to create a decentralized Web3 ecosystem powered by AI where data ownership is democratized, privacy is a choice, and users are empowered to leverage their data for personal, social, and economic advancement.
