

Objectways Technologies Enhances Digital Safety with Content Moderation Services

Seasoned Team Utilizes AI-Powered Technology to Deliver High-Quality Content Moderation Solutions

The graphic features a dark blue background with a large, stylized orange and yellow circular shape on the right. Inside this shape is a large smartphone screen. A woman with long red hair, wearing a pink shirt and a blue skirt, stands inside the phone screen, holding a blue megaphone. Surrounding the phone are various icons: a gold coin with a dollar sign, a blue lightning bolt, a five-star rating bar, a thumbs-up icon, a heart icon, a smiley face, and a shopping cart icon. The Objectways logo is in the top left corner. The text 'Excited to provide top-notch content moderation services for your brand' is in white and orange. Below it, a quote says 'Let us handle the nitty gritty so you can focus on what you do best'. A list of services includes Image & Text Moderation, Video Moderation, and Audio Moderation. A 'JOIN US' button with a link icon is at the bottom left. Contact information (phone, website, email) and social media icons (Facebook, Instagram, Twitter) are at the bottom.

Coimbatore, Tamil Nadu Jul 16, 2024 (Issuewire.com) - Objectways Technologies, a leading provider of Data Labeling Services, is excited to announce the launch of its newest service - Content Moderation. With this addition, Objectways Technologies aims to cater to the growing need for accurate and efficient content moderation in various industries.

As our world becomes increasingly digital, there has been a significant rise in online content that needs to be moderated. From social media platforms to e-commerce websites, companies are struggling to ensure that their content is appropriate and meets community guidelines. This is where Objectways Technologies' Content Moderation services come in.

With over 8 years of experience in Data Labeling, Objectways Technologies has developed a highly trained team that specializes in accurately labeling and moderating all types of digital content. Our team utilizes state-of-the-art technology and follows strict quality control measures to provide clients with high-quality results.

Speaking about this new service, the CEO of Objectways Technologies said, "We understand the importance of maintaining a safe and positive online environment for users. With our Content Moderation services, we aim to help businesses maintain a clean and suitable platform for their audience while freeing up their resources to focus on core activities."

Objectways Technologies' Content Moderation services include:

- Image and video moderation
- Text moderation
- Audio moderation
- Social media moderation
- E-commerce content moderation

By outsourcing content moderation to Objectways Technologies, businesses can:

- Ensure compliance with community guidelines and regulations
- Protect their brand reputation
- Improve user experience
- Increase efficiency and reduce costs

Contact Objectways Technologies today to learn more about their Content Moderation services and how they can help your business maintain a safe and positive online environment.
