Founded in 2014 by Martha, a passionate mom who believes in the power of nature, this purpose-driven brand brings you effective beauty solutions made with natural ingredients.

The Good Company's story is as heartwarming as it is inspiring. Founded by Martha, a passionate advocate for natural wellness solutions, the company was born from a desire to help her son Ozzy overcome a stubborn eye condition. Determined to find a natural alternative to surgery, Martha ventured on a journey to create a healing oil blend. Did she succeed? She sure did! She came up with a [unique formula](#) that not only transformed Ozzy's condition but ignited a passion in her to share this gift with others.

Fueled by this experience, The Good Company was born. They're dedicated to providing high-quality, natural wellness products that are safe and effective for the whole family.
