

TLC Lab Supply Celebrates 10 Years of Providing Test Kits

TLC Lab Supply celebrates 10 years of excellence in providing reliable the test kits. Trusted by professionals for accuracy and quality, our kits ensure precise results for your testing needs.

Medford, Oregon Jan 10, 2026 (IssueWire.com) - TLC Lab Supply, a leading provider of the test kits, is proud to announce its 10-year anniversary since starting its business in 2008. The company opened its first online store in 2009 and has since become a trusted source for easy-to-use the testing kits.

The journey of TLC Lab Supply began with a small thin layer chromatography [THC testing kit](#) that the founders discovered overseas. However, the kit did not meet their standards of accuracy and reliability. Determined to provide the best products to their customers, the company reached out to the manufacturer and successfully brought the kit to the USA.

Since then, TLC Lab Supply has expanded its product line to include a variety of the test kits, all designed to provide accurate and efficient results. The company's commitment to quality and customer satisfaction has earned them a loyal customer base and a reputation as a reliable source of cannabis testing supplies.

As the the industry continues to grow, the need for reliable testing methods becomes increasingly important. TLC Lab Supply is proud to have been a part of this industry for the past 10 years and looks forward to continuing to provide top-notch products and services to its customers.

We are thrilled to celebrate our 10-year anniversary and to have played a role in the growth of the cannabis industry," said the founders of TLC Lab Supply. "We are committed to providing the easiest-to-use the test kits to ensure the safety and quality of the products for both consumers and businesses."

TLC Lab Supply's 10-year anniversary is a testament to their dedication to providing reliable and accurate the test kits. The company looks forward to many more years of serving the the community and helping to ensure the safety and quality of the products.
