Taipei Shih / Taipei Hsien, Taiwan Jul 9, 2024 ([IssueWire.com](https://www.issuewire.com)) - VG Global Holdings, the wealth management specialists headquartered in Taiwan, are pleased to announce the launch of their new Asia-Pacific Innovation and Expansion Fund ("The Fund"), an exciting new fund which seeks to capitalise on equity from companies in Asia which have a strong record in innovation and expansion within their markets.

The Fund will be a high-conviction, concentrated equity portfolio which will focus on innovative companies in the Asia-Pacific region which have shown solid performance with regards to innovation, either in products or services, and expansion with regards to market capitalisation in their industry.

The Fund will aim to achieve its investment objective by adopting an all-cap fundamental approach and investing 80% of its assets in companies in the Asia-Pacific region, while 20% will be invested in innovative companies on a global scale who have shown equity growth due to innovation, especially with regards to technology, or expansion within their market.

VG Global Holdings CEO, Greg Aitken, said, "We are seeking to capitalise on the new economy and the rising disposable income in Asia, and the number of companies which are showing an aptitude for innovation and expansion, and who we think will offer the best prospects for long-term equity and capital appreciation."

The Fund will be made available primarily to the company's institutional clients or high net-worth individuals, but it will also be made available to any clients who can meet the minimum entry level requirements.
