

Charles T. Crinnian, MD, Leading the Way in Aerospace Medicine

Pioneering Aerospace Medicine for Safe Skies

New York City, New York Aug 5, 2024 ([Issuewire.com](https://www.issuewire.com)) - Dr. Charles T. Crinnian, a renowned aerospace medicine specialist, serves as the CEO/CMO/Chief Pilot at Frontier Aerospace Medicine in Scottsdale, Arizona. With a focus on providing clinical care and operational support for flight crewmembers, Dr. Crinnian plays a pivotal role in ensuring the health and safety of aviation professionals who operate in challenging high-altitude environments.

Specializing in managing and preventing health issues that can arise in extreme conditions such as microgravity, radiation exposure, G-forces, and hypoxic conditions, Dr. Crinnian's expertise is instrumental in safeguarding the well-being of pilots and crew members working in the air or space. As an FAA designated Senior Medical Examiner, his consultations extend from student pilots to Airline Transport Pilots, reflecting his commitment to upholding the highest standards of aviation health and safety.

Dr. Crinnian's educational background is as extensive and diverse as his professional pursuits. Having pursued studies in finance and advanced sciences before completing his Doctor of Medicine degree, he brings a multidisciplinary approach to his practice. His residency at the Barrow Neurological Institute equipped him with invaluable expertise in neurology, further enriching his capabilities in addressing complex medical issues in aviation.

In addition to his role in aerospace medicine, Dr. Crinnian is a board certified neurologist and an ATP rated pilot, actively engaged in the aviation community. His dedication to advancing the field is further underscored by his involvement in prestigious professional memberships, including the American Academy of Neurology, the Red Star Pilots Association, and the Professional Aeromedical Transport Association, among others.

Dr. Crinnian has lectured extensively at local and national aviation seminars on medical and flight safety topics. Having a foundation in both aviation and medical education, he is well suited to present a dynamic presentation on aeromedical issues and physiology.

Beyond his professional commitments, Dr. Crinnian is deeply engaged in various charitable endeavors, supporting organizations such as Embry-Riddle Aeronautical University-College of Aviation, the Experimental Aircraft Association, and the Mooney Caravan Safety and Educational Foundation. His passion for aviation is matched only by his love for outdoor adventures, including alpine skiing, canyoneering, and rock climbing.

Dr. Charles T. Crinnian stands at the forefront of aerospace medicine, combining clinical excellence with a profound commitment to aviation safety. Through his pioneering work, he continues to elevate standards in the field, ensuring a safer and healthier future for all aviation professionals.
