

Cypher Tech Inc. Announces Appointment of Denise Conroy to the Advisory Board

Cypher Tech Inc., a forward-thinking company, is revolutionizing the corporate landscape with its unique solution designed to amplify employee experience. They are thrilled to announce the latest addition to their Board of Advisors, Denise Conroy.

Austin, Texas Sep 2, 2024 ([IssueWire.com](https://www.issuewire.com)) - “We are thrilled to welcome Denise to our Advisory Board,” said Danish Jaffer, Founder and CEO. “Denise is a dynamic leader and change agent, renowned for her transformative impact on organizations and individuals. Her distinguished career spans various industries, with pivotal roles such as CEO of a global e-commerce company and CMO at HGTV. Denise’s versatile experience, strategic insights, and unwavering commitment to advocating for underrepresented communities will be crucial in shaping our strategy and driving our success as we embark on the next phase of Cypher Tech’s journey.”

About Denise Conroy

Denise Conroy is a visionary, accomplished executive and leadership development expert with a career marked by transformative impact across various industries. She currently serves as the Founder and CEO of [Themy](#), a company dedicated to empowering women, particularly women of color, to achieve their career goals. Conroy is committed to fostering inclusive, outcomes-based leadership that makes workplaces better. Her extensive experience includes pivotal roles such as CEO of a global e-commerce company and CMO at HGTV. Her commitment to advocacy for underrepresented groups and her strategic acumen have been instrumental in organizational success and cultural change. As a coach, she has guided over 500 women into executive roles and helped launch and grow more than 100 businesses. Conroy’s unique blend of expertise and passion makes her a formidable force in the business world.

“I’m honored to work with Cypher Tech and its groundbreaking [SafeSpace](#) product,” said Conroy. Workplace inclusion drives organizational performance. That can only happen with a relentless commitment to transparency and employee engagement. SafeSpace is a comprehensive solution to drive both.”
