

Eternal Fragrance's New Luxury Fragrance Line is Revolutionizing the Scent Industry

Beverly Hills, California Aug 21, 2024 ([Issuewire.com](https://www.issuewire.com)) - Listen up, fragrance lovers! There's a new scent-sation in town turning the perfume world on its head. Founded in November 2023, Eternal Fragrance aims to redefine the fragrance market by offering luxury-grade scents at unbeatable prices, proving that mind-blowing luxury doesn't need a mind-numbing price tag.

After leveraging over 20 years of experience in the global Natural Products Industry, Eternal Fragrance has now partnered with one of the world's top leading fragrance houses, to create a scent lineup that not only stands up to designer brands – it leaves them in the dust, outlasting them by a jaw-dropping 10-30%.

"We're here to rewrite the rules. We're democratizing luxury by offering superior quality, that is affordable, inclusive and unforgettable," says Dan Ciarlariello, CEO of Eternal Fragrance. "We've spent years establishing key global partnerships that allow us to source the purest, most potent ingredients directly, passing the savings on to our customers. Some would try to convince you that buying a fragrance for hundreds of dollars is luxury, but true luxury means having options. And with the diverse collection of luxury designer scents at Eternal Fragrance, you can now afford different options for every occasion."

But don't think for a second that affordable means ordinary. Each Eternal Fragrance is a symphony in a bottle, an Eau de Parfum powerhouse boasting at least 20% fragrance concentrate, surpassing industry standards. After sourcing the purest and most potent oils from around the world, each scent is

meticulously handcrafted and refined using their special proprietary technique, guaranteeing longer-lasting results. Each scent is then crafted with high-grade, odorless perfumer's alcohol delivering ZERO alcohol scent, furthering their distinction from competitors. And then after undergoing months of rigorous quality control and testing adhering to the highest safety standards under ISO certification, only the most pure, long-lasting scents are approved and shared with the public.

Now, let's talk about those bottles. These aren't just containers – they're couture for your countertop. Each is a masterpiece, a dazzling decanter that's as much a conversation piece as the scent inside. And with each 100ml bottle packing enough punch for up to 2,000 sprays, you're not just buying a fragrance – you're investing in an aromatic arsenal.

Eternal Fragrance delivers a lineup roster of enduring excellence:

- Crafted from the highest luxury grade oils, contains NO chemicals
- Specially formulated with high-grade, odorless perfumer's alcohol
- Vegan, ethical, sustainable, and eco-friendly
- Absolutely no animal testing ever
- Customer focused, uncompromising values, kindness in every bottle
