

From Dream to Bestseller: Authors On Mission Writes Its Own Success Story

New York City, New York Aug 29, 2024 ([Issuewire.com](https://www.issuewire.com)) - In a world where everyone has a story to tell but few find the time to write it, one company has made it its mission to turn aspiring authors into bestselling writers. Authors On Mission, the brainchild of entrepreneur Vikrant Shaurya, has not only helped hundreds of professionals and thought leaders publish their books but has now written its own chapter of success by securing the 286th spot on Inc. magazine's prestigious 5000 list of America's

fastest-growing private companies.

"When I started Authors On Mission, I had a simple goal: to make book writing and publishing accessible to busy professionals who have valuable insights to share but lack the time or expertise to put them on paper," says Shaurya, recalling the company's humble beginnings. "Never in my wildest dreams did I imagine we'd be recognized as one of America's fastest-growing companies."

The journey from a small startup to an Inc. 5000 company hasn't been without its plot twists. In an industry often resistant to change, Authors On Mission introduced a revolutionary four-phase process that streamlines book creation from concept to bestseller status. This innovative approach, coupled with their team of "Angel Writers" who capture each author's unique voice, has struck a chord with clients ranging from industry leaders to first-time authors.

One such client, Sarah Martinez, a tech entrepreneur, shares, "I always wanted to write a book about my experiences in Silicon Valley, but between running my company and family life, it seemed impossible. Authors On Mission not only made it possible but also enjoyable. Now I'm a published author with a bestseller under my belt!"

The numbers speak for themselves. In the past three years, Authors On Mission has seen a staggering growth rate of 1,842%, helping over 500 authors publish their books, with 80% achieving bestseller status on Amazon. But for Shaurya and his team, it's not just about the numbers.

"Each book we help create is a dream realized, a legacy preserved, or knowledge shared that can impact thousands of lives," Shaurya explains. "Our Inc. 5000 ranking is a testament to the power of these stories and the trust our clients place in us to tell them."

Looking ahead, Authors On Mission shows no signs of slowing down. The company plans to expand its services to include audiobook production and interactive e-books, staying ahead of the curve in the ever-evolving publishing landscape.

"We're just getting started," Shaurya says with a smile. "Our goal is to democratize thought leadership. We believe everyone has a book in them, and we're here to bring those books to life, one bestseller at a time."

As Authors On Mission continues to write its own success story, it's clear that this is one tale that's far from its final chapter.
