

Rumi Faizer, MD: Pioneering Integrated Care for Vascular Diseases in San Bernardino

Committed to Personalized Patient Care

New York City, New York Aug 19, 2024 ([IssueWire.com](https://www.issuewire.com)) - A highly respected vascular surgeon and a proud advocate for patient-centered care, Dr. Faizer is a proud member of the team at UP Medical in San Bernardino, California. He strives to enhance the quality of care for patients suffering from vascular diseases, a critical area of healthcare that often requires specialized attention. Dr. Faizer also joined the University of Loma Linda as a Professor of Surgery, where he will continue to train vascular surgeons, perform research, and care for patients. He continues to do research in Aortic disease and peripheral artery disease.

Dr. Faizer provides care through UP Medical and is an advocate of the integrated care approach their team is focused on advancing. UP Medical has established itself as a pioneer in integrated care, combining various specialties to ensure that patients receive comprehensive treatment that addresses their multifaceted health issues. By integrating services and fostering collaboration among healthcare providers, the organization is better equipped to manage chronic conditions, including complex vascular diseases.

With a distinguished education from McGill University Faculty of Medicine, where he graduated in 1998, Dr. Faizer has built an impressive career in vascular surgery. His credentials include being a Fellow of the American College of Surgeons and board certification in vascular surgery by the American Board of Surgery. Additionally, he served as the Chief of Vascular Surgery at the University of Minnesota from 2014-2018, where he led a team of experts in advancing surgical techniques and improving patient outcomes.

At UP Medical, Dr. Faizer will leverage his extensive experience and innovative mindset to provide personalized, effective, and efficient care for patients with vascular diseases. “I am excited about the opportunity to work with a team that prioritizes integrated care,” said Dr. Faizer. “My goal is to offer tailored treatment plans that address the unique needs of each patient, especially those who have not found success in traditional hospital-based programs.”
