

StreamFab Fully Restores Netflix 1080P Quality: Further Optimizes Netflix Module Functionality

StreamFab Improved Netflix module again and the new releases aim to offer a more user-friendly and convenient experience for users.

New York City, New York Aug 9, 2024 ([IssueWire.com](https://www.issuewire.com)) - StreamFab, the industry-leading video downloader, is proud to announce the complete restoration of Netflix 1080P quality, along with enhanced functionality for its Netflix module. Since its launch in 2018, StreamFab has achieved an impressive milestone of over 100 million downloads, maintaining a robust update frequency of over 50 improvements on [Netflix to MP4](#) each year.

Starting in June, StreamFab users have enjoyed the reintroduction of Netflix 1080P downloading capabilities. Following this major update, the StreamFab team dedicated the months of June through August to further optimize the Netflix module's performance, ensuring that users can get a seamless experience and [rip Netflix videos](#) in high quality at their convenience.

"Our goal has always been to provide our users with the best possible experience when downloading their favorite content," said Erika, Marketing of StreamFab. "The restoration of 1080P quality for Netflix is a significant step forward, and our ongoing improvements to the Netflix module demonstrate our commitment to innovation and user satisfaction."

The latest updates not only enhance video quality but also improve the overall downloading speed and reliability for users. With these enhancements, [StreamFab Netflix Downloader](#) continues to solidify its position as a preferred choice for users seeking efficient and high-quality video downloading solutions.

As StreamFab looks to the future, the team remains focused on expanding its capabilities and maintaining high standards of performance, working as a great supplement to [download Netflix movies on Macbook](#), which is an obvious cons of Netflix. Regular updates and user feedback will continue to inform the development of new features and functions, further enhancing StreamFab's reputation within the industry. No matter what kind of plan you subscribe to Netflix, StreamFab can help you to [download Netflix movies on laptop](#) without any ad interruption.
