New York City, New York Aug 23, 2024 ([IssueWire.com](https://www.issuewire.com)) - StreamFab, a prominent player in multimedia solutions, has announced a significant upgrade to its existing [StreamFab Apple TV Plus Downloader](#). It now supports 1080p and 4K downloads, delivering an unparalleled visual experience for all users. Based on StreamFab's dedication to making online streaming easier and further enriching the streaming experience for its global consumer base, the new update makes it possible to [download Apple TV shows](#) in premium quality.

This is indeed a big improvement because other similar tools currently only save 480p Apple TV plus shows. Moreover, since 2024, the company has been improving product quality, adding many new services to the [StreamFab All-In-One](#) service or improving the quality of existing services. For example, [StreamFab Netflix Downloader](#) supports downloading AV1 video Codec. [StreamFab Amazon Downloader](#) supports Amazon's newly released videos in EAC3 5.1 audio format. All of these reflect StreamFab's responsible attitude towards users.

Commenting on the latest updates, the CEO of StreamFab stated, "We are thrilled to announce this upgrade to our Apple TV Plus Downloader. It underlines our constant endeavor to offer the finest streaming solutions to our users. With 1080p and 4K support, our users can now enjoy their favorite shows and movies in uncompromising quality. This is just the beginning, and we pledge to continue offering premium services and features in the future."

With the upgrade, not only does the downloaded video maintain the original quality from the streaming site, but it also allows flexibility in selecting the desired quality option. StreamFab's upgraded Apple TV Plus Downloader promises a cozier binge-watching experience, with incredible picture quality and sound.

By making their favorite movies and seasons accessible in high-definition and 4K quality, StreamFab has once again set a benchmark in the industry.
