

The Indianapolis Fire Department chooses DynamoEdge AI Intelligent Transportation System

Carmel, Indiana Aug 29, 2024 ([Issuewire.com](https://www.issuewire.com)) - The Indianapolis Fire Department, a recognized leader within the fire service, has elected to work exclusively with DynamoEdge's AI Intelligent Transportation System to help accomplish mission-critical outcomes in their fleet and operations.

Recognizing the value of DynamoEdge's AI SaaS, the department elected to implement AI-driven capabilities to achieve significant benefits in safety, operational excellence, maintenance costs, fuel, and carbon emissions.

About [DynamoEdge](https://www.dynamoedge.ai) Inc: DynamoEdge's AI SaaS (Software-as-a-Service) unlocks new predictive capabilities to enhance our customer's ability to sense the environment, reason and analyze information, learn, adapt to new situations, and take proactive actions to improve the performance of fleets, logistics, automated solutions, environmental, agricultural and network operations.
