WAYNE E. CRISS

Manila, Luzon Aug 15, 2024 (Issuewire.com) - Seasoned author Wayne E. Criss is thrilled to share his works in the 2024 Manila International Book Fair this September 11-15, 2024 at SMX Convention Center.

Author Wayne E. Criss' [Nano Trilogy II: Ancient Witchology in Battles](#) will have you on the edge of your

seat! Join the musketeers in their battle against the Korrektorizer as they seek justice for their fathers' death.

For the past five years, the musketeers have been fighting against the Korrektorizer and his Committee of International Conservative Industrialists. Despite their rigorous training, they can't seem to put an end to the terrors. More and more innocent lives have been lost due to this clandestine organization and the improved nanotechnology they are using to eliminate people who hinder their success.

The International Witches Conclave which took place in Ireland, directed the Irish-Bostonian musketeer to seek help from the witches of Africa, Asia, and Ireland to combat their nemesis. Later on, all four musketeers who excelled in their respective professions were involved in this endeavor to defeat their enemies once and for all.

Will the shaman help carry out their plan? Will they succeed in defeating the Korrektorizer?

The author, Professor Doctor Wayne E. Criss, has continuously taught his entire professional life in several private and university-affiliated high technology laboratories and clinics in the USA, Europe, and Asia. He has written numerous medical research papers and books won more than 20 national and international scientific awards, and regularly consulted for government and private science funding agencies. As a prominent medical scientist, Dr. Criss is now drawing from his experience and has begun creating exciting novels with unusual "modern" ideas.
