

Achieve a Radiant Smile with the ProWhiteSmile Deluxe System

Achieve a Radiant Smile with the ProWhiteSmile Deluxe System. ProWhiteSmile Deluxe System is here to help you achieve that million-dollar smile you've always wanted

London, United Kingdom Sep 16, 2024 ([Issuewire.com](https://www.issuewire.com)) - ProWhiteSmile is transforming the world of teeth whitening with its innovative Deluxe System with Whitening Light. Designed for those who desire a radiant smile without the hefty price tag of dental clinics, our system boasts advanced technology that combines the power of the 5 LED whitening accelerator lights with specially formulated

16% or 22% carbamide peroxide gels. This system is engineered to deliver professional-grade results right in the comfort of your home.

Say Goodbye to Stains and Hello to Confidence!

Are you tired of dealing with stubborn stains from coffee, wine, or smoking? The ProWhiteSmile Deluxe System is here to help you achieve that million-dollar smile you've always wanted. Our professional-strength whitening gels, used in dental offices around the globe, are now available to you at a fraction of the cost. With the same technology and power as dental clinics, our system ensures fast and effective whitening results whether you need **Teeth whitening gel in Scotland** or [Teeth whitening gel Northern Ireland carbamide peroxide teeth whitening gel Refill syringes](#).

How Does It Work?

The ProWhiteSmile Deluxe System features a 5 LED whitening accelerator light that enhances the effectiveness of our carbamide peroxide gels. By utilising this light, you can achieve faster whitening results, making your journey to a brighter smile quicker and more efficient. The combination of our high-quality gels and advanced light technology allows you to experience the same professional results that dentists offer, but from the comfort of your home.

Premium Whitening Gels

Our whitening gel is available in two strengths: 16% and 22% carbamide peroxide. The choice of strength allows you to customise your whitening experience based on your sensitivity levels and desired results. Each large 10ml syringe contains enough gel for up to 40 individual tray treatments, ensuring you have ample supply for multiple sessions.

ProWhiteSmile offers two concentrations of carbamide Peroxide Teeth Whitening Gel to cater to different needs and preferences: Always consult your Dentist and ensure you are in good oral health before any professional at home whitening.

16% Carbamide Peroxide Gel: Our gentle and gradual whitening solution, perfect for tops and sensitive teeth or gums or for maintaining a healthy smile.

22% Carbamide Peroxide Gel: Our advanced and intense whitening solution, designed for faster and more dramatic results, ideal for those seeking a brighter smile in a shorter amount of time.

Both products are manufactured in our USA custom Lab, ensuring the highest quality and safety standards. Our gels are carefully formulated to provide:

- Effective stain removal and whitening
- Gentle and safe application
- Easy and convenient use
- Long-lasting results

Why Choose the ProWhiteSmile Deluxe System?

Our Deluxe System is designed to bring the benefits of professional teeth whitening directly to your home. The ProWhiteSmile whitening light and high-strength **carbamide peroxide teeth whitening gels used by dentists** provide the same level of performance as those used in top dental offices, yet at

a fraction of the cost. Here's what sets our system apart:

- **Professional-Grade Whitening Light:** Our 5 LED whitening accelerator light significantly speeds up the whitening process, delivering faster and more effective results.
- **High-Strength Carbamide Peroxide Gels:** Choose between 16% and 22% carbamide peroxide gels, formulated to the same standards used in dental clinics. Our gels are available in large 10ml syringes, sufficient for up to 40 individual tray treatments.
- **Affordable Excellence:** The ProWhiteSmile system offers the benefits of a professional whitening system at home without the high price tag associated with dental office treatments.

The ProWhiteSmile Deluxe Kit Includes

- **5 LED Whitening Accelerator Light:** Engineered to enhance the whitening process, this light helps activate the [carbamide peroxide teeth whitening gel Refill syringes](#) for superior results.
- **Professional Strength Carbamide Peroxide Gels:** Available in 16% and 22% formulations, our gels provide powerful whitening action. Each large 10ml syringe offers enough gel for up to 40 treatments.
- **Custom Moldable Dental Bleaching Trays:** Included are two thermoform trays for the top and bottom arches, ensuring a comfortable fit and effective whitening.
- **Easy-to-Follow Instructions:** Clear and concise instructions guide you through the whitening process for optimal results.
- **Aftercare Gel:** includes a 3ml syringe of remineralising and desensitising gel.

Expand Your Options with ProWhiteSmile

For those seeking even more value, ProWhiteSmile offers various kits to suit your needs:

- **Standard Kit:** Includes one 10ml syringe of [carbamide peroxide teeth whitening gel](#), two custom moldable trays, and detailed instructions.
- **StandardPlus Kit (20ml):** Offers a larger amount of gel for extended use.
- **Excel Kit (30ml):** Provides an increased gel supply for more frequent treatments.
- **Jumbo Family Gel Kit (60ml):** Ideal for multiple users or long-term use, featuring an ample supply of whitening gel.
- **Ultima System:** Comes with lab-made custom trays, three large syringes of 16% or 22% carbamide peroxide teeth whitening gels, remineralising gel, and thermal trays.

Trusted by Professional.

ProWhiteSmile has 20 years experience in the teeth whitening industry. Serving customers around the world from our UK and EU offices.

Unbeatable Offers and Custom Solutions

We understand that everyone has different needs when it comes to teeth whitening. That's why we offer unbeatable prices for our custom bleaching trays. With our special offer, you can receive technician-made custom trays by post for only £64.99, which includes FREE GEL. For couples, we offer custom-made trays for two people for just £119.99, ensuring you both can achieve that dazzling smile.

Compare and Save

If you're considering teeth whitening options, we encourage you to compare the amount of whitening gel provided by other companies. ProWhiteSmile stands out with our 22% oversized 10ml gel-filled syringes, delivering up to 40 tray treatments each. Other brands often provide smaller syringes, resulting in fewer treatments and higher costs.

Proven Results

Our teeth whitening systems have helped thousands of individuals experience whiter teeth without the need for an expensive trip to the dentist. Many customers report visible results after just one treatment, making ProWhiteSmile the go-to choice for effective teeth whitening.

Why ProWhiteSmile Stands Out

- **Cost-Effective Solutions:** Compare our generous 10ml gel syringes to smaller alternatives from other brands. Our gels provide up to 40 tray treatments each, offering superior value.
- **High-Quality Ingredients:** Our [carbamide peroxide teeth whitening gels used by dentists](#) are made in the USA with safe, effective ingredients. The gel is gluten-free, cruelty-free, and not tested on animals.
- **Effective Remineralization:** We also offer remineralizing gels to enhance enamel strength and sensitivity post-whitening, providing complete care for your teeth.

Conclusion

Achieving a brighter smile has never been easier or more affordable. With the ProWhiteSmile Deluxe System, you can enjoy professional-grade teeth whitening in the comfort of your home. Our specially formulated gels, advanced technology, and unbeatable prices make us the leading choice for teeth whitening solutions.
