

ADMEC Multimedia Institute to Host Digital Painting Competition 2024

New Delhi, Delhi Sep 6, 2024 ([Issuewire.com](https://www.issuewire.com)) - The renowned multimedia and design education institution ADMEC Multimedia Institute is thrilled to present the Digital Painting Competition 2024. At the institute's campus in Rohini, Delhi, this much-awaited event will honor the imagination and technical prowess of young artists. Students can explore the boundaries of digital art, interact with like-minded people, and display their abilities on this great platform.

The goal of the 2024 Digital Painting Competition is to push competitors by asking them to produce digital artwork on a subject that will be revealed on the day of the competition. This unexpected component will put the candidates' flexibility and inventiveness to the test and force them to come up with original designs in a constrained amount of time. With just six hours to finish, participants' artwork will be a true test of their creativity, time management, and competence.

All students who are passionate about digital painting and want to use digital media to express their creativity are welcome to enter the competition. This is an opportunity not just to compete but also to gain knowledge and develop from the experience. A panel of experts of professionals from the digital art sector will judge each piece of art, guaranteeing an impartial and thorough assessment of the talent on

display.

ADMEC will give rewards to the top three performers in order to honor excellence; first, second, and third place winners will also receive special recognition. In addition to recognizing their extraordinary abilities, this acknowledgement will give them more inspiration and possibilities to pursue their artistic careers.

Because ADMEC Multimedia Institute has a long history of encouraging innovation and creativity in the digital arts, this competition is an ideal setting for aspiring artists to be noticed and exposed. All students interested in digital painting are encouraged to take part in this fascinating event at the institute.
