Orem, Utah Sep 23, 2024 ([IssueWire.com](https://www.issuewire.com)) - Discover ground-breaking health insights and frequency optimization with Solex AO Scan Technology for holistic and personalized wellness.

AO Scan Global, a health and wellness industry leader and Quantum Living Advocate, is excited to

showcase cutting-edge AO Scan Technology, significantly advancing wellness assessments and personalized health solutions. This revolutionary frequency technology provides unprecedented insights into the body's wellness, offering a holistic approach to health that is transforming the industry.

Bridging the Gap in Modern Wellness

With rising rates of cancer, autoimmune diseases, and a notable decline in life expectancy, people are increasingly seeking proactive and preventive health solutions. According to recent studies, the global cancer rate is expected to increase by 50% over the next 20 years, and autoimmune diseases are affecting more than 50 million Americans annually. Life expectancy in the United States has decreased, dropping to its lowest level in decades. These alarming statistics highlight the urgent need for innovative wellness solutions.

AO Scan Technology is a powerful educational tool for individuals and practitioners, enabling them to identify the root cause of health issues more quickly and affordably. AO Scan often reduces the need for extensive lab tests by providing detailed insights into the body's energetic imbalances. It helps users make informed decisions about targeted supplements and lifestyle changes. This approach empowers users to achieve homeostasis more effectively, supporting proactive health management in an increasingly challenging wellness landscape.

The New Era of Wellness with AO Scan Technology

AO Scan technology offers a comprehensive approach to health and wellness through its flagship app. This technology is based on extensive data gathered from over 11 million scans, analyzing 170,000 reference points on the body and comparing them to a database of over 120,000 frequencies. Over time, this vast amount of data collection has helped Solex Global identify trends and develop innovative products and associated technology that work in conjunction with the users' results.

As Paige Maurer Wheeler, Global Team Leader at AO Scan Global, eloquently states, "Our company's development is driven by what we know people need. It's incredibly exciting to be part of a company that bases its innovation on data and genuine necessity rather than fleeting trends or revenue projections."

AO Scan Technology: Comprehensive Health Insights

The AO Scan Technology is an innovative educational tool that provides comprehensive wellness insights and optimizations through advanced vibrational and frequency analysis. It features a suite of scans, including Quick Scan, EZ Scan, Vital Scan, Body System Scan, Comprehensive Scan, Dental & TMJ Scan, AO Mindsync, S.E.F.I. (subtle energetic frequency imprinter), AO Tune and much more. These tools offer detailed reports covering a wide range of health metrics, from vitamins and minerals to emotional health and organ functionality.

AO Scan assessments and optimizations offer a robust, comprehensive overview of various health aspects such as:

- Environmental and food sensitivities
- Digestive enzymes
- Amino acids
- Organs
- Blood Chemistry

- Inflammation markers
- Gastrointestinal system
- Emotions
- Genetic miasms
- Mitochondria
- Chromosomes
- Endocrine system
- Hormones
- Nervous system
- Skeletal system
- Cardiovascular system
- Connective tissues
- And much more!

This thorough approach ensures that users can gain in-depth insights into their health and well-being, providing a sense of confidence and reassurance.
