

Bettin' On The Mule Releases Uplifting New Single Titled "Small Town"

excited to announce the release of their new single “Small Town” on September 5, 2024. The single is available on all digital platforms and cd.

The Rockmart, Georgia band has been described as the "pioneers of Hometown Rock". This is the sound they have created for their original music which is a blend of musical influences from southern rock, classic rock and country.

BOTM's newest creation is based on some of lead singer Jacob Wilson's real-life experiences. “This song is about perseverance”. Wilson adds, “Never let anyone try to stop you from chasing your dreams. Always keep going, moving forward and believing in yourself.”

“Small Town” was originally recorded as a slower tempo song but the band decided to change it to a more upbeat, positive vibe. Bettin’ On The Mule’s newest EP “Redneck Rocker” was recorded in Kennesaw, Georgia at Cock of the Walk studios owned by Jesse James Dupree of Jackyl. Produced and engineered by acclaimed engineer Jeff Tomei. It is available on all streaming services, cd and vinyl.

Look for Bettin’ On The Mule this fall promoting their music with live shows at fairs, festivals and clubs all around the Southeastern US. For show dates and more info please visit www.bettinonthemule.com.
