

Beyond Intranet Enhances HR Directory 365 with New Features for Enhanced Employee Engagement and Experience

Chicago, Illinois Sep 3, 2024 ([IssueWire.com](https://www.issuewire.com)) - Beyond Intranet, a leading provider of innovative workplace solutions, announces significant enhancements to its [HR Directory 365](#) platform, designed to empower organizations with enhanced employee engagement and experience features.

Multi-Lingual Support: Broadened Accessibility

To cater to diverse linguistic backgrounds, HR Directory 365 now supports 10 more languages: Dutch, French, German, Italian, Japanese, Mandarin (PRC), Portuguese, Russian, Slovak, and Spanish. This ensures broader usability and accessibility for global organizations, fostering inclusivity and seamless communication across international teams.

Employee Spotlight: Celebrating Excellence

The new Employee Spotlight feature in HR Directory 365 highlights an individual employee's achievements and contributions. This feature aims to boost employee recognition and motivation within organizations. Administrators can configure Spotlight settings such as title entry, validity period, employee selection criteria, badge uploads, and descriptions. Spotlit employees are prominently featured on the main HR Directory 365 page under the Spotlight tab, fostering a culture of appreciation and acknowledgment.

Send Greetings to New Joiners: Seamless Integration from Day One

HR Directory 365 now includes an automated feature that sends welcome notifications to new employees, ensuring they feel integrated and valued from their first day. This feature streamlines the onboarding process and enhances organizational culture by making new joiners feel welcomed and supported.

Mobile App Integration: Access HR Anytime, Anywhere

With the new mobile app integration, HR Directory 365 extends its functionalities beyond desktops. The mobile app allows employees to access HR Directory 365 on the go with features such as:

- List and Grid Views for easy employee navigation.
- Detailed employee interactions including direct calls, emails, and chats via Microsoft Teams.
- Contact synchronization to keep employee information up to date.

SharePoint Integration for Enhanced User Profiles

HR Directory 365 now integrates with SharePoint User Profiles, expanding access to over 100 user profile fields. This enhancement includes built-in birthday features and customizable fields, providing administrators with comprehensive employee profile management capabilities.

"Our latest enhancements to HR Directory 365 underscore our commitment to empowering organizations with robust tools for employee engagement and operational efficiency," said **Rishabh Jhawar, Senior Product Manager** at Beyond Intranet. "These new features not only streamline intranet employee communication but also enhance employee satisfaction and organizational cohesion."

About Beyond Intranet:
