

Epiction Launches New Service Brand, Epiction Softworks, Offering Comprehensive Software Solutions

Delivering Innovative Digital Solutions to Accelerate Business Growth Across Industries

Vadodara, Gujarat Sep 17, 2024 ([Issuewire.com](https://www.issuewire.com)) - [Epiction](https://www.epiction.com), a tech startup recognized for its innovative contributions to video game development, AI tools, and interactive products, proudly announces the launch of its new brand, **Epiction "Softworks"**. This new division will focus on providing tailored software services, including web development, app development, eCommerce solutions, graphic design, video editing, and 3D modeling.

Epiction Softworks expands on the expertise Epiction has built since its inception in 2022, offering a comprehensive range of digital solutions for businesses. This launch marks a significant milestone as the company positions itself to deliver services that meet the growing demands for advanced digital tools across industries.

"With the launch of Softworks, we're moving towards becoming a more diversified tech company," said [Gyan Prabhat](#), Founder of Epiction. "We aim to help businesses transform digitally through customized, scalable solutions. Whether it's a dynamic website, a mobile app, or high-quality visual content, we're here to make their vision a reality."

Epiction Softworks is set to serve a broad array of clients, helping businesses unlock their full potential through tailored digital solutions. Whether creating a fully functional eCommerce platform or delivering high-quality video editing and 3D modeling services, the brand will provide a one-stop shop for digital transformation.

As **Epiction Softworks** launches, the parent company, [Epiction](https://www.epiction.com), will continue its focus on game

development and AI tools, ensuring a dual emphasis on both service and product innovation.
