

EyeProGPO, LLC and Clarius Mobile Health Announce Partnership to Enhance Eye Care Ultrasound Technology Solutions

Athens, Georgia Sep 3, 2024 ([IssueWire.com](https://www.issuewire.com)) - EyeProGPO, LLC, a leading group purchasing organization (GPO) dedicated to providing cost-effective solutions for ophthalmology ASCs and eye care professionals, and Clarius Mobile Health, a global leader in high-definition handheld ultrasound systems, today announced a strategic partnership aimed at improving access to affordable, high-quality ultrasound technology for eye care professionals.

This partnership will enable EyeProGPO members to benefit from exclusive pricing and special offers on Clarius' innovative handheld wireless ultrasound scanners, including the Clarius L15 and L20 HD3 ultrasound scanners, devices specifically designed for ophthalmology.

"We are thrilled to partner with Clarius Mobile Health to bring their cutting-edge ultrasound technology to our members," said Phil Meyer, COO at EyeProGPO, LLC. "This partnership underscores our commitment to providing members with access to the latest advancements in eye care technology, empowering them to deliver the best possible patient care."

Clarius handheld wireless ultrasound scanners offer unparalleled image quality, portability, and ease of use, making them an ideal solution for busy eye care professionals. These devices enable real-time visualization of the eye and surrounding structures, aiding in the diagnosis and management of a wide range of ocular conditions.

"Clarius is thrilled to join forces with EyeProGPO to expand the reach of our handheld ultrasound scanners in the eye care community," said Tony Titus, Chief Commercial Officer at Clarius Mobile Health. "Our user-friendly, high-performance ultrasound devices empower eye care professionals to make accurate diagnoses, monitor treatment progress, and help improve patient outcomes. We are confident that this partnership will benefit both EyeProGPO members and their patients."

Clarius ultrasound scanners, now available to EyeProGPO members, are a powerful tool for ophthalmic imaging. With high-frequency linear probes and advanced imaging capabilities for ocular use, Clarius provides exceptional image clarity and detail, allowing for precise visualization of even the most delicate ocular structures.

The Clarius handheld ultrasound scanners offer a range of benefits for eye care professionals, including:

- **Exceptional Image Quality:** High-definition imaging for accurate diagnoses.
- **Portability:** Wireless and lightweight design for easy use in any setting.
- **AI-Powered:** Intelligent software for streamlined ocular workflows and enhanced efficiency.
- **Versatility:** Multiple applications for comprehensive eye examinations.

Through this partnership, EyeProGPO members will gain access to special pricing and dedicated support for Clarius ultrasound systems, enabling them to seamlessly incorporate this valuable technology into their practice.

About EyeProGPO, LLC

EyeProGPO, LLC is a leading group purchasing organization dedicated to providing eye care professionals and surgery centers with access to cost-effective products and services. EyeProGPO leverages the collective buying power of its members to negotiate competitive pricing on a wide range of products and services.
