

Ghana Olympiad Academy and Spirit of Math Partner to Bring International Spirit of Math Contest to Ghana

For the 2024-25 School Year

Toronto, Ontario Oct 18, 2024 ([Issuewire.com](https://www.issuewire.com)) - [Ghana Olympiad Academy](#) and [Spirit of Math](#) are thrilled to announce an exciting collaboration that will bring the International Spirit of Math Contest to Ghana for the 2024-25 school year.

The partnership is a continuation of Spirit of Math's unwavering commitment to promote co-operation, inspire confidence and release the genius in every child all around the world. This collaboration gives Ghanaian students the opportunity to showcase themselves in an international competition and to further develop their skills, knowledge and confidence.

"At Spirit of Math, we believe in taking students from the top of the class to the top of the world," said [Kim Langen](#). "We are proud to support Ghana Olympiad Academy in their quest to create an informed and skill-ready generation of students, capable of making a global impact."

Ghana Olympiad Academy, an academic talent development organization, has worked with international contests for years to deliver opportunities for students from Grades 2 to 12 in Ghana. By partnering with Spirit of Math, an innovative leader in education, Ghana Olympiad Academy continues its mission to ignite the geniuses in students, develop their analytical thinking, power of reasoning, logical thinking and problem solving skills critical for future success.

"We are pleased to partner with Spirit of Math to provide Ghanaian students with this incredible opportunity," said Abel Acquaye, Program Director at Ghana Olympiad Academy. "Contests like the International Spirit of Math Contest provide kids with invaluable experiences that enrich their educational journeys and help them realize their full potential."

The partnership is one of many collaborations Spirit of Math is undertaking with international organizations to bring the International Spirit of Math Contest to every corner of the world. Competitive events such as these offer children an excellent opportunity to develop important skills such as analysis, problem solving and critical thinking. They also get the personal satisfaction (and motivational boost) of tackling and conquering some of the hardest questions.

About Ghana Olympiad Academy

Ghana Olympiad Academy is an academic talent development organization that works with the Singapore International Mastery Contest Center to nurture Ghana's next generation of academic thinkers, innovators and doers. The organization helps students from Grades 2 to 12 in Ghana partake in International Olympiad examinations in Math, ICT and science, online. Learn more by visiting www.ghanaolympiadacademy.com.

About Spirit of Math

For over 30 years, Spirit of Math has been an innovative leader in education for high-performing students, with more than 40 campuses across the globe. From in-person and online classes, camps and workshops to an expanding series of workbooks and training for educators, Spirit of Math is changing the equation for inquisitive minds around the world. Spirit of Math's four elements – Core Curriculum,

Drills, Problem Solving and Collaborative Group Work – form the foundation of all its programs. These building blocks are the basis of a multi-layered experience that creates well-rounded students with an intensive toolkit of skills, logical problem-solving and higher-level collaborative capabilities.
