

Guardrail Technologies, Inc. Assessed "Awardable" for US DoD Work - Tradewinds Solutions Marketplace

Guardrail Technologies created Guardrail for Generative AI™, a suite of software solutions to put organizations, businesses, governments, and individuals in control of their use of Generative AI™.

Park City, Utah Sep 27, 2024 ([Issuewire.com](https://www.issuewire.com)) - Guardrail Technologies Inc., a leading provider of products and services in Responsible AI Technology Solutions today announced that the company has achieved "Awardable" Status through the [Chief Digital and Artificial Intelligence Office's \(CDAO\) Tradewinds Solutions Marketplace](#).

The Tradewinds Solutions Marketplace is the premier offering of Tradewinds, the Department of Defense's (DoD) suite of tools and services designed to accelerate the procurement and adoption of Artificial Intelligence (AI) / Machine Learning (ML) data, and analytic capabilities.

Generative AI has unlocked a realm of opportunities. Companies, governments, and organizations have begun exploring and integrating this transformative technology to stay competitive. However, many are finding that the risks outweigh its benefits. Globally, numerous organizations have banned its use due to issues like hallucinations and misinformation. Despite this, many users continue to leverage Generative AI, achieving significant gains but at greater risk. Using Generative AI without safeguards creates numerous challenges. Guardrail Technologies™ created Guardrail for Generative AI™, a suite of software solutions to put organizations, businesses, governments, and individuals in control of their use of Generative AI™. The Guardrail Suite for Generative AI is a robust collection of intuitive tools that help identify sources of content, get a handle on prompts, and put controls around your data to mitigate key risks. These tools keep generative AI safe, responsible, and transparent. **Sunscreen™ Guardrail for Safe Video Conferencing** prevents data from being shared that an individual, family, corporate employee, or employer does not intend to share by simply hiding it. **Guardrail Consulting for Responsible AI** offers a range of consulting services including the assessment, audit, and implementation of Responsible Technology, AI, and Data. Guardrail Technologies, Inc. puts people back in control of AI by bringing human intelligence into the loop. **Guardrail Technologies™ enables efficiency and revenue gains through AI plus human intelligence.** Visit [www.Guardrail.tech](https://www.guardrail.tech) for more detailed responsible AI solutions.

Company President Shawnna Hoffman states, “Guardrail is the culmination of a lifetime career of work in the AI sector. As a woman owned business, I’m proud to lead a team of passionate and experienced professionals to operationalize Responsible AI. Global regulatory bodies are racing to require it, Guardrail Technologies provides it.”

Guardrail Technology Inc. was recognized among a competitive field of applicants to Tradewinds Solutions Marketplace whose solutions demonstrated innovations, scalability, and potential impact on DoD missions. Government customers interested in viewing the video solution can create a Tradewinds Solutions Marketplace account at <https://TradewindAI.com>.

About Guardrail Technologies, Inc.: Guardrail Technologies Inc. is a private woman-owned corporation with headquarters in Park City, Utah. It provides Responsible AI products and consultation. Following the public introduction of generative AI platforms like ChatGPT, Claude, Perplexity, Gemini, and many others, the company brought technologists, investors, executives, AI engineers, and developers together to address the risks and optimize the benefits. The company’s sales force spans the globe and has been met with vigorous customer engagement and receptivity in a short period of time.

About the Tradewinds Solutions Marketplace: The Tradewinds Solutions Marketplace is a digital repository of post-competition, readily awardable pitch videos that address the Department of Defense’s (DoD) most significant challenges in the Artificial Intelligence/ Machine Learning (AI/ML), data, and analytics space. All awardable solutions have been assessed through complex scoring rubrics and competitive procedures and are available to Government customers with a Marketplace account. Government customers can create an account at www.tradewindai.com. Tradewinds is housed in the DoD’s Chief Digital Artificial Intelligence Office.
