Their expert audiologists perform every type of audiological evaluation like Audiometry, Tympanometry, etc. For your convenience, Hazra Hearing Aid Center offers free hearing tests and hearing aid trials. Their audiologists have handled 100+ patients and always recommend the appropriate machines that fix hearing problems.

Personalized Solutions for Your Hearing Need

Hazra Hearing Aid Center's advanced hearing aids cater to the particular needs of individuals. Whether you have mild, moderate, or severe hearing loss, the center provides personalized hearing aid solutions to ensure enhanced comfort and performance. The hearing aids come with a 4-year warranty and can be customized to fit the user's lifestyle.

They are the authorized seller of Phonak, Resound, Unitron, Starkey, Audeo Service, Oticon, and Signia hearing aid brands. Hazra Hearing Aid Center offers the following types of hearing aids, as listed below:

Behind The Ear (BTE): It sits behind the outer ear and is available in Mini, Standard, and Bigger Size.

Receiver In Canal (RIC): These are smaller in size than a BTE. They are suitable for mild to severe High-Frequency Hearing Loss.

Completely In Canal (CIC): These hearing aids are almost invisible and fit comfortably inside the ears. You can buy them if you have mild to moderately severe hearing loss.

According to Deepak Barua, a happy customer, "I purchased CIC type hearing aid for my spouse, the first thing is that if you are buying spectacles its okay but buying a hearing aid for a person below 40 is still filling shy or in other words, we not habituates of hearing aid. Mr. Subashis guided us in taking the right hearing aid in an affordable price range, and CIC is not visible from the outside. Since we had no idea about the hearing aid, the audible program was done, and now the hearing aid is working fine. Thanks to Mr. Subashis."
