

HWPL's 10th Peace Summit Draws 100,000: A Decade of Progress Toward Global Harmony

Chicago, Illinois Sep 18, 2024 ([Issuewire.com](https://www.issuewire.com)) - On September 18th, [HWPL](https://www.issuewire.com) celebrated the 10th Anniversary of its World Peace Summit, a momentous occasion marked by the participation of 100,000 attendees from 40 countries, including South Korea. Held under the theme "Building a Community of World Peace through Interregional Cooperation," the event gathered global dignitaries, civic leaders, and citizens, all united in their commitment to global harmony. The event's significance was highlighted by contributions from religious leaders such as Monk Hye Chong, and international figures like Timor-Leste's Minister of Higher Education, Science, and Culture, Jose Honorio da Costa Pereira Geronimo.

In his powerful address, HWPL Chairman Man Hee Lee shared, "Let us no longer draw a line between you and me, but play a role in saving the global village by uniting with the material of love and peace. Let's work together to leave a valuable peace as a legacy for future generations." His words underscored HWPL's ongoing dedication to fostering unity and understanding across borders.

A significant highlight of the summit was the launch of the 'Together: Connecting the Republic of Korea' campaign, aimed at bridging cultural divides and promoting mutual understanding across generations. More than 230 civic organizations will collaborate under this initiative, drawing inspiration from South Korea's Saemaul Movement. The goal is to carry out peace activities tailored to local needs while strengthening social solidarity.

The event also saw HWPL's renewed partnerships with international organizations such as the [Group of](#)

[Seven Plus](#) (G7+) and the [Latin American Parliament](#) (PARLATINO). These alliances will continue to shape peace strategies that reflect regional concerns, ensuring sustainable progress in conflict resolution, development, and intergovernmental cooperation.

Looking ahead, HWPL will expand its peace-building efforts through regional networks and global events. With the slogan, "Let all the global villages become messengers of peace," HWPL will engage individuals and communities worldwide to share messages of peace, reinforcing the role of every global citizen in promoting unity and understanding.
