

ICF builds out educational initiatives in Uzbekistan with school expansion in Khorezm

The International Chodiev Foundation (ICF) is pleased to announce the completion of construction and the opening of a new educational block at Secondary School No. 23 in the Khiva district of the Khorezm region.

Tashkent, Toskent Sep 17, 2024 ([IssueWire.com](https://www.IssueWire.com)) - The International Chodiev Foundation (ICF) is pleased to announce the completion of construction and the opening of a new educational block at Secondary School No. 23 in the Khiva district of the Khorezm region which will expand the facility by 270 students. The project was jointly implemented with the Ministry of Preschool and School Education of the Republic of Uzbekistan.

The new school will help address the current issue of overcrowding in schools and the lack of available spaces in the Khiva district. It will create 270 new places for children, enabling them to study in comfortable and spacious rooms equipped with modern facilities.

The new educational block is a three-story building that includes nine classrooms, a science class facility, a teachers' room, an administration room, a medical center, toilets, and a library. The building, totalling 537 m², has modern high-quality equipment. The block was constructed on a free area of the school territory and is connected to the existing school building through a ground-level covered passage.

The ICF's Founder, Dr Patokh Chodiev, commented:

"We are delighted to support the government's efforts to develop education and assist in improving the future of the children of Uzbekistan. We believe that good education can change lives. For many years, the ICF's activities have been focused on nurturing the potential of the next generation."

"The opening of this school marks the next phase of our charitable programme to support the development of education, science, and culture in the Republic of Uzbekistan".

The construction project is part of a comprehensive educational programme implemented by the ICF in Uzbekistan in support of the State Programme for the Development of School Education in 2022-2026. Apart from that, the relevant ICF projects include the sponsorship of two rural residential care schools, a boarding school, and a preschool education facility, as well as several student scholarship programmes.

About the National Programme for the Development of School Education in 2022-2026

On 11 May 2022, the Decree of the President of the Republic of Uzbekistan 'On approval of the National Programme for the Development of School Education in 2022-2026' was issued. The decree includes several measures aimed at improving the learning conditions for students in educational institutions, including the construction, reconstruction, major repairs, and modernisation of secondary education institutions in Uzbekistan.

The International Chodiev Foundation has joined this initiative and has begun implementing an extensive charitable programme consisting of multiple phases.

About the International Chodiev Foundation (ICF)

The International Chodiev Foundation is a charitable organization established in 1996 by Uzbek businessman and philanthropist Dr Patokh Chodiev. The Foundation's work comprises a broad range of charitable programmes in the CIS countries, Asia and Europe. In Uzbekistan, the work is carried out by the ICF's Representative Office, which was registered with the Ministry of Justice of the Republic of Uzbekistan on 28 August 2017. The main objectives of the Foundation in Uzbekistan are to provide charitable assistance in the social, scientific, and medical fields, to support culture, art, and sports, and to provide humanitarian aid to vulnerable people, educational, and medical institutions.
