

Mama Bear Pest & Outdoor: Where Clean Living Meets Eco-Conscious Pest Control

Katy, Texas, United States: Protect Your Home, Family, and Pets

Katy, Texas Sep 12, 2024 ([IssueWire.com](https://www.issuewire.com)) - A new name in pest control is making waves in Katy, Texas—**Mama Bear Pest and Outdoor**, a woman-owned, family-operated company, is providing homeowners with eco-friendly pest solutions that prioritize safety for kids, pets, and the environment. Specializing in green pest control, this innovative company offers a comprehensive range of services designed to eliminate pests without compromising health or environmental sustainability. What sets Mama Bear apart from traditional pest control companies is their unwavering commitment to using plant-based pesticides and green technologies. Their unique approach ensures a pest-free home while keeping harmful chemicals away from children, pets, and the planet.

Leda Harrington, as a mother and the CEO of [Mama bear pest and Outdoor](#) understands the importance of creating a healthy home environment, free from pests and harmful chemicals. The company's services extend beyond basic pest control. From termite and rodent exclusion to German roach and fire ant treatments, the brand tackles even the toughest pest challenges with eco-friendly methods. Their licensed technicians, trained through the Texas Department of Agriculture, combine expertise in pest control with construction know-how, ensuring a comprehensive and meticulous service that protects both the structure and safety of homes. They are focused on giving families peace of mind by providing pest control solutions that are both safe and effective.

Homeowners dealing with wildlife issues can also rely on **Mama Bear Pests and Outdoor** for the humane and thorough removal of animals like raccoons, squirrels, and rodents from attics, chimneys, and vents. Their wildlife exclusion services ensure that once removed, these unwanted guests stay out for good. The business offers specialized services such as mosquito control, which includes innovative In2Care mosquito stations and mosquito fog treatments. These treatments are highly effective, breaking down the mosquito life cycle to provide lasting relief throughout Texas' long mosquito season. New homeowners, families with children and pets, and those seeking eco-conscious pest control are among the primary clients. The company prides itself on being local, affordable, and personalized, offering free estimates to clients throughout the Katy area.

Mama Bear Pest and Outdoor is a woman-owned and family-operated pest control company based in Katy, TX. Specializing in eco-friendly pest control solutions, the company offers a wide range of services that keep homes and businesses pest-free without compromising safety. With a focus on family values, sustainability, and customer satisfaction, the service has become Katy's trusted partner in creating a cleaner, greener environment.
