

SogaWorks Launches Online Instant Quote Platform for Rapid Prototypes

Shenzhen, Guangdong Sep 2, 2024 (IssueWire.com) - SogaWorks, a company specializing in rapid prototyping in China, is delighted to introduce its innovative online instant quote platform for rapid prototypes. The cutting-edge technology can be accessed at www.sogaworks.com/client/#/quote and provides immediate price estimates for a diverse array of prototyping services.

The fast quotation platform functions by promptly analyzing design data upon the upload of CAD files. The system quickly provides a price estimate, allowing consumers to make orders and verify the parameters of the estimate in order to acquire fast prototypes. SogaWorks' rapid quoting system enables Companies to acquire estimates at any given time and location.

"Upon examining the rapid prototyping sector, we have identified a notable deficiency in the ability to acquire bids promptly. The need to shorten product development cycles, mitigate investment risks, and save costs is continuously growing," states Chris Tian, CEO of SogaWorks. "Prototyping customers frequently encounter difficulties when attempting to procure quotations from numerous manufacturers within a limited timeframe for the purpose of comparison. Our new online quoting system is to connect and integrate physical and digital production systems."

AI-based Instant Quotation Platform

SogaWorks' innovative quotation system allows consumers to promptly obtain up-to-date pricing details, as well as select from a range of material and finish options to complete their orders. These new features have been implemented to optimize the company's operational efficiency. It enables users to expedite the ordering process for different components, freeing up engineers to dedicate more time to other manufacturing endeavors.

SogaWorks provides a quoting system that enables clients to conveniently download, manage, and modify all their bids in one location. Users can immediately view lead times and bulk prices with the usage of fast quotations. Furthermore, there is an immediate evaluation of pricing across various materials and technologies.

Manufacturing clients have the ability to make orders and supervise the manufacture of parts online, eliminating the need to access various tracking platforms. The rapid quotation platform developed by SogaWorks incorporates automated Design for Manufacturability (DfM) feedback into the workflow. Customers have the ability to effortlessly modify their order at any point. In addition, they are provided with automated email reminders at each phase of part production until the final delivery.

SogaWorks securely keeps your 3D models and designs on a backed-up server, which can only be accessed by project teams and management.
