

SunTec Data Named among Top 10 Web Data Scraping Companies Worldwide by GoodFirms

Laguna Beach, California Sep 5, 2024 ([IssueWire.com](https://www.issuewire.com)) - SunTec Data, a 25-year-old BPO/BPM company, has been recognized among the [top 10 web data scraping service providers globally by GoodFirms](#) - a reputed B2B review and rating platform. GoodFirms is known for evaluating and ranking companies based on their service excellence, reliability, and client feedback, helping businesses find the right service providers for their specific needs. This acknowledgment underscores SunTec Data's commitment to delivering high-quality data extraction services to its clients across diverse verticals (such as eCommerce, real estate, travel, finance, and more).

Being an ISO-certified organization, SunTec Data prioritizes data security and quality, which makes it a trusted partner for businesses seeking reliable and cost-efficient data support and management services. Their offerings include web data research, extraction, processing, [custom list building](#), data visualization, and more. By leveraging advanced technologies and maintaining rigorous quality standards, SunTec Data ensures that clients receive accurate and actionable data to support their business decisions. Additionally, their robust data security measures ensure the confidentiality and integrity of the data collected, fostering trust among their clients.

Delighted by this recent accolade, Mr. Rohit Bhateja, Director of Data Division, SunTec India, highlighted:

"In an era where AI and automation play a significant role in data collection, we believe the human touch is crucial in ensuring data accuracy and reliability. By integrating a human-in-the-loop approach with advanced web scraping technologies, we strive to provide data that is not only relevant but also complete, recent, and free from inconsistencies, enabling our clients to make informed decisions and gain a competitive edge. This recent recognition from GoodFirms as a leading global [web data scraping company](#) is a great honor and encourages us to continue focusing on innovation, quality, and customer satisfaction."
